Aviation Department - Traffic Statistics

JoJo Quayson
Santiago Grullon
Jean Debrosse
Tushar Japi

Notes1: The section entitled Air Transport Association Carriers is included to give a comparison between Port Authority Airport traffic growth and aggregate growth as measured by the majority of the U.S. carrier industry.

Note2: The page 2 Access Mode: residents report excludes passengers arriving by hotel courtesy vehicles, helicopters, and the miscellaneous "other" category. The airline OAG summary uses schedules effective for the week in the middle of the month being summarized."Flights (daily) refers to the daily-each-way average flights which can be thought of as 1 directional departing or arriving flights.

Aviation Department

The region's passenger traffic achieved a 7.9 percent increase - a new March record. Our airports served a record 10.7 million passengers, or 790,000 more than we handled in March 2015. This gain translates to a year-to-date growth of 8.3 percent - the third highest since the 12.8 percent recorded in 2004Q1 and the 9.8 percent posted in 2005Q1. Domestic traffic set the pace with an 8.2 percent increase and set a new record level for the month of March. International traffic, too, set a new monthly mark as it posted a 7.4 percent growth. The region's traffic benefitted from a 3.7 percent increase in seat capacity. Cargo movement continued to underperform, registering a 2.5 percent drop. International freight, which accounts for 65 percent of the region's cargo activity, fell 9 percent. On the other hand, domestic cargo grew strongly - up 11.9 percent.
