Tushar Japi

Notes1: The section entitled Air Transport Association Carriers is included to give a comparison between Port Authority Airport traffic growth and aggregate growth as measured by the majority of the U.S. carrier industry.

Note2: The page 2 Access Mode: residents report excludes passengers arriving by hotel courtesy vehicles, helicopters, and the miscellaneous "other" category. The airline OAG summary uses schedules effective for the week in the middle of the month being summarized. "Flights (daily) refers to the daily-each-way average flights which can be thought of as 1 directional departing or arriving flights.

Aviation Department

Two important records were set at the aggregate level in 2015. For the third year in row, the region's overall traffic set an all-time record as the airports handled 124.2 million passengers, eclipsing the 117 million passenger mark set in 2014. Additionally, the region also handled 43.6 million international passengers, breaking the all-time international passenger traffic record set in 2014. The domestic sector led the region's growth with a gain of nearly 7 % and a net addition of 5.1 million passengers. By growing 5.9 % in 2015, the region increased total passengers by 6.9 million over the 2014 level, was higher than the nation's 4.8 % growth, and was more than twice the 2.5 rate we had forecast for the region. With a gain of 1.2 %, cargo grew for the second consecutive year, marking the first time it has achieved this feat since 2005.
