List of specific record(s):
I have been talking with Terriann Moore Abrams and Jessica Smith about ICIC's project, supported by the Prudential Foundation, to analyze the potential role Newark's anchor institutions can play in spurring local business growth through increased local purchasing. We are requesting 2013 purchasing data from Newark Liberty Airport and Port Newark for our analysis. We would appreciate the following data, preferably in a spreadsheet: Vendor Address City, State, Zip Code Vendor NAICS code or industry description if available Product or Purchasing Category Transaction Amount Contract End Date if applicable The purchasing data will be kept confidential. We will only report your figures in aggregate with other participating institutions. This data will be used to 1 determine the total amount currently spent in Newark, 2 classify the major spending categories of anchor institutions, and 3 identify the best opportunities for local purchasing based on these categories.
