

## List of PATH Riders' Council (PRC) Members

**PATH Riders' Council (PRC)** was formed to ensure riders have a voice in system design, customer service communications and operations decision-making. The PRC is a one-year pilot program that enables a standing advisory group to meet year-round.

The PRC consist of a cross-section of riders from different geographical locations and demographics representing the PATH service area.

The PRC members meet every other month, on the third Wednesday of the month (a total of six meetings for the one-year pilot). The pilot period will allow time for the council members to provide formal recommendations on the new council's structure and function.
