Ingrid Hamilton-Williams

Notes1: The section entitled Air Transport Association Carriers is included to give a comparison between Port Authority Airport traffic growth and aggregate growth as measured by the majority of the U.S. carrier industry.

Note2: The page 2 Access Mode: residents report excludes passengers arriving by hotel courtesy vehicles, helicopters, and the miscellaneous "other" category. The airline OAG summary uses schedules effective for the week in the middle of the month being summarized."Flights (daily) refers to the daily-each-way average flights which can be thought of as 1 directional departing or arriving flights.

This is the first month in which the newest Port Authority airport, Stewart, is included in the regional summary, as well as appearing in a separate report. Also note the updated passenger survey data on page 2. Regional passenger traffic fell (0.4%) affected by high fuel prices and slower economic growth. Domestic traffic fell (4.5%) while international gained 9.9%. Regional freight declined (7.2%).
