Aviation Department - Traffic Statistics

JoJo Quayson
Santiago Grullon
Jean Debrosse
Tushar Japi

Notes1: The section entitled Air Transport Association Carriers is included to give a comparison between Port Authority Airport traffic growth and aggregate growth as measured by the majority of the U.S. carrier industry.

Note2: The page 2 Access Mode: residents report excludes passengers arriving by hotel courtesy vehicles, helicopters, and the miscellaneous "other" category. The airline OAG summary uses schedules effective for the week in the middle of the month being summarized."Flights (daily) refers to the daily-each-way average flights which can be thought of as 1 directional departing or arriving flights.

The region's passenger traffic grew 4.9 percent and set yet another record as our airports served an all-time May high of 11.4 million passengers - 529,000 more travelers compared to May 2015. Growth was led by the domestic sector, which expanded 5.1 percent and set a new record for the month of May. International traffic, too, set a monthly mark as it grew 4.5 percent. The region's traffic growth benefitted from a 4.5 percent seat capacity expansion. Continuing a trend that began during the second half of last year, the region's cargo activity posted a 2.3 percent drop in May. International cargo, which represents 65 percent of the region's cargo movement, led the fall with a 2.9 percent decrease. Domestic freight activity also decreased, down a moderate 1.3 percent.
