Notes1: The section entitled Air Transport Association Carriers is included to give a comparison between Port Authority Airport traffic growth and aggregate growth as measured by the majority of the U.S. carrier industry.  
Note2: The page 2 Access Mode: residents report excludes passengers arriving by hotel courtesy vehicles, helicopters, and the miscellaneous "other" category. The airline OAG summary uses schedules effective for the week in the middle of the month being summarized. "Flights (daily) refers to the daily-each-way average flights which can be thought of as 1 directional departing or arriving flights.

January was a feel good month. Passenger traffic beat the ATA total growth rate and set a record for January. Real growth, however, was lower than it appears due to a continued Y2K effect and a severe snow storm in January 2000. International passenger traffic suffers from gateway competition. February traffic will fall off. Freight still lags.

## THE PORT AUTHORITY OF NY & NJ JANUARY 2001 TRAFFIC REPORT
