## TERMS AND CONDITIONS

1. The Port Authority (PA) reserves the right to request information relating to seller's responsibility, experience and capability to perform the work.
2. Unless otherwise provided, complete shipment of all items must be in one delivery FOB delivery point. Payment will not be made on partial deliveries unless authorized in advance by the party to be charged and the discount, if any, will be taken on the total order.
3. PA payment terms are net 30 days. Cash discounts for prompt payment of invoices may be taken but will not be considered in determining award, except in the case of tie bids.
4. Separate unit and total FOB delivered prices must be shown.
5. Sales to the PA and to PATH are currently exempt from New York and New Jersey State and local taxes and generally from federal taxation. The seller certifies that there are no federal, state, municipal or any other taxes included in the prices shown hereon.
6. The PA shall have the absolute right to reject any or all proposals or to accept any proposal in whole or part and to waive defects in proposals.
7. Unless the phrase "no substitute" is indicated, bidder may offer alternate manufacturer / brands, which shall be subject to Port Authority approval. Please indicate details of product being offered with bid.
8. Acceptance of seller's offer will be only by Purchase Order Form signed by the PA. No change shall be made in the agreement except in writing.
9. If the seller fails to perform in accordance with the terms of this purchase order, the PA may obtain the goods or services from another contractor and charge the seller the difference in price, if any, a reletting cost of \$100, plus any other damages to the PA.
10. Upon request, sellers are encouraged to extend the terms and conditions of any terms agreement with the PA to other government and quasi-government entities by separate agreement.
11. By signing this quotation or bid, the seller certifies to all statements on Form PA 3764A regarding non-collusive bidding; compliance with the PA Code of Ethics; and the existence of investigations, indictments, convictions, suspensions, terminations, debarments and other stated occurrences to assist the PA in determining whether there are integrity issues which would prevent award of the contract to the seller. The PA has adopted a policy set forth in full on PA 3764A, that it will honor a determination by an agency of the State of New York or New Jersey that a bidder is not eligible to bid on or be awarded public contracts because the bidder has been determined to have engaged in illegal or dishonest conduct or to have violated prevailing wage legislation. The Terms and Conditions of PA 3764A apply to this order. A copy can be obtained by calling (201) 395-3405 or at <http://www.panynj.gov/business-opportunities/become-vendor.html>
12. The vendor may subcontract the services or use a supplier for the furnishing of materials required hereunder to such persons or entities as the Manager, Purchasing Services may from time to time expressly approve in writing. All further subcontracting shall also be subject to such approval.
13. The successful bidder (vendor) shall not issue nor permit to be issued any press release, advertisement, or literature of any kind, which refers to the Port Authority or that goods will be, are being or have been provided to it and/or that services will be, are being or have been performed for it in connection with this Agreement, unless the vendor first obtains the written approval of the Port Authority. Such approval may be withheld if for any reason the Port Authority believes that the publication of such information would be harmful to the public interest or is in any way undesirable.
14. Neither the Commissioners of the Port Authority, nor Directors of PATH, nor any of them, nor any officer, agent or employee thereof, shall be charged personally by the Contractor with any liability, or held personally liable to the Contractor under any term or provision of this Agreement, or because of its execution or attempted execution, or because of any breach, or attempted or alleged breach, thereof.

## DECALS / REFLECTIVE TAPE

THE VEHICLE SHALL BE EQUIPPED WITH PORT AUTHORITY SUPPLIED FLEET NUMBERING AND DECALS. THE LETTERING DECAL MATERIAL SHALL BE BLUE REFLECTIVE. THE ENGINEER WILL REVIEW THE DETAILS AND LOCATION OF ALL NUMBERING AND DECALS WITH THE VENDOR AT THE TIME OF COMPLETION. THE VENDOR WILL BE EXPECTED TO INSTALL THE FOLLOWING:

### A. NUMBERING AND DECALS:

- TWO (2) SETS OF 4" HIGH FIVE (5) DIGIT BLUE PORT AUTHORITY FLEET VEHICLE NUMBERS ON EACH SIDE OF THE VEHICLE
- TWO (2) SETS OF 1½" HIGH FIVE (5) DIGIT BLUE PORT AUTHORITY FLEET VEHICLE NUMBERS ON THE FRONT AND REAR OF THE VEHICLE
- PORT AUTHORITY LOGO CENTERED ON EACH FRONT DOOR
- FACILITY LOGO ON THE REAR OF EACH FRONT DOOR
- RED/SILVER BARRICADE REFLECTIVE STRIPING MATERIAL TO COVER ENTIRE REAR AREA AS DESIGNATED BY THE ENGINEER
- PORT AUTHORITY DECAL AND NO SMOKING SIGN ON DASHBOARD
- 1" HIGH FIVE DIGIT WHITE PORT AUTHORITY FLEET VEHICLE NUMBER ON DASHBOARD PA DECAL

### B. OTHER VEHICLE MARKINGS – PROVIDED BY THE VENDOR:

- PLACARD NEAR TONGUE INDICATING LOADED TRAILER WEIGHT AND TONGUE WEIGHT.
- PLACARD NEAR TONGUE INDICATING TRAILER MUST BE TOWED ONLY BY DRIVER WITH A CDL AND HAZMAT ENDORSEMENT
- OVERALL HEIGHT PLACARD, RED PLASTIC WITH 1½" LETTERING, LOCATED ON DASH
- ALL OTHER VEHICLE STRIPING, MARKINGS, AND LABELS REQUIRED TO COMPLY WITH ALL APPLICABLE FEDERAL, STATE, AND LOCAL STANDARDS AND REGULATIONS
- WHEN APPLICABLE, ALL VEHICLES EQUIPPED FOR TOWING A TRAILER (TOW RECEIVER, BALL OR PINTLE HOOK OR OTHER TOWING CONNECTION POINT INSTALLED ON THE UNIT), SHALL HAVE A PERMANENT WEATHERPROOF LABEL OR ENGRAVED PLACARD LOCATED AS NEAR AS PRACTICAL TO THE TOWING CONNECTION POINT STATING THE MAXIMUM TOWING CAPACITY AND MAXIMUM PERMISSIBLE TONGUE WEIGHT.

# Appendix A

## AUTOMOTIVE PROCUREMENT STANDARD CONTRACT TERMS AND CONDITIONS

### 1. INTENT

These Terms and Conditions apply to the purchase of the latest production model Quest Aluminum Trailer or approved equal.

### 2. DEFINITIONS

Authority or Port Authority:

For the purposes of this agreement, the terms "Authority" or "Port Authority" mean The Port Authority of New York and New Jersey and/or the Port Authority Trans-Hudson Corporation (PATH), as applicable.

Agreement/Contract:

For the purposes of this agreement, the terms "Agreement" and "Contract" can be used interchangeably to mean the agreement entered into by the signatories of this document, and shall consist of the Specifications, this Appendix D, and any other appendices, attachments, exhibits or addenda, as outlined in the section entitled "Entire Agreement".

Contractor/Vendor:

For the purposes of this agreement, the terms "Contractor" and "Vendor" can be used interchangeably to mean the entity entering into this Contract with the Port Authority of New York and New Jersey.

Director:

For the purposes of this agreement, Director means the Director of Procurement of the Port Authority, or successor in duties, acting personally, or her authorized representative.

Engineer:

As used in this agreement, the term "Engineer" means the Manager of the Central Automotive Division of the Port Authority, acting either personally or through his duly authorized representatives acting within the scope of the particular authority vested in them.

Manager:

As used in this agreement, the term "Manager" means the Manager of the Commodities and Services Division of the Port Authority acting either personally or through her duly authorized representatives acting within the scope of the particular authority vested in them.

### **3. VENDOR REQUIREMENTS**

The Vendor must have or be closely associated with an adequate, as determined by the Engineer, service facility staffed by trained and experienced service personnel and a stock of repair parts suitable for a timely response to the Authority's vehicle service requirements. All warranty work that requires more than one half a day (four (4) hours) must be performed at the Vendor's designated repair site. All costs of moving the vehicle to and from this repair site are to be at the Vendor's expense, and included in the warranty. Warranty work that requires less than one half day's work may be performed at the local automotive shop with permission from the shop supervisor, and prior notification and mutually agreeable scheduling. In such instances, Vendor staff must work cooperatively with Port Authority shop personnel in accordance with agency labor agreements.

### **4. ENGINEER'S AUTHORITY**

In the performance of the Work hereunder, the Vendor shall conform to all orders, directions and requirements of the Engineer and shall perform the Work hereunder to the satisfaction of the Engineer at such times and places, by such methods and in such manner and sequence as he/she may require, and the Contract shall at all stages be subject to his/her inspection. The Engineer shall determine the amount, quality, acceptability and fitness of all parts of the Work and shall interpret the Specifications and any orders for Extra Work. The Vendor shall employ no equipment, materials, methods or staff or personnel to which the Manager objects. Upon request, the Engineer shall confirm in writing any oral order, direction, requirement or determination.

The Engineer shall have the authority to decide all questions in connection with the Services to be performed hereunder. The exercise by the Engineer of the powers and authorities vested in him/her by this section shall be binding and final upon the Port Authority and the Vendor.

### **5. GENERAL REQUIREMENTS**

The unit and associated equipment shall be furnished complete and ready for use, all as more fully required by the terms of the Specifications and in strict accordance therewith.

The unit and all equipment shall be the manufacturer's latest current published stock model(s), which meet the requirements of these specifications. Wherever it is specified that sixty (60%) percent (value) of a vehicle's components and subcomponents are to have been produced in the United States or Canada, with final assembly taking place in the United States, the Vendor shall not substitute an equivalent make or model vehicle that does not meet such criteria, without prior express written approval by the Engineer. The Vendor shall submit with its bid all the brochures, drawings, and technical information necessary for a complete product evaluation.

## **6. TAX EXEMPTIONS AND INDEMNITY - CUSTOMS DUTIES**

Sales to the Port Authority, as a governmental instrumentality of the states of New York and New Jersey, are exempt from taxation, either state or municipal, in those two states, and also from federal taxation, including excise taxes. Certificate of Registry for tax-free transactions under Chapter 32 of the Internal Revenue Code is No. 13-730079k. The Vendor therefore certifies that there are no such taxes included in the prices quoted herein. The Vendor should retain a copy of this agreement to substantiate the exempt sale. If, however, any sales tax, use tax, or excise tax imposed by congress, by a state or any political sub-division thereof is now or hereafter applicable to the sale of the units to the Port Authority, such taxes will be reimbursed by the Port Authority, subject to the provisions of the tax indemnity below. In addition, the Vendor shall bear all customs duties or imposts and all export duties or imposts, if any, resulting from or in connection with the performance of this agreement.

## **7. TAX INDEMNITY**

If any claim is made against the Vendor by a governmental Authority for the taxes as stated above, then the Port Authority will reimburse the Vendor in an amount equal to the amount of such tax required to be paid in accordance with the requirements of law, provided that:

The Vendor has complied with such rules and regulations as may have been promulgated relative to the claiming of any exemption from such taxes and has filed all the forms and certificates required by the applicable laws, rules, and regulations in connection therewith; and

The Port Authority is afforded the opportunity, before any payment of tax is made, to contest said claim in the manner and to the extent that the Port Authority may choose and to settle or satisfy said claim, and such attorney as the Port Authority may designate is authorized to act for the purpose of contesting, settling, and satisfying said claim; and

The Vendor gives immediate notice to the Port Authority of any such claim, cooperates with the Port Authority and its designated attorney in contesting said claim and furnishes promptly to the Port Authority and said attorney all information and documents necessary or convenient for contesting said claim.

If the Port Authority elects to contest any such claim, it will bear the expense of such contest.

## **8. INSURANCE PROCURED BY THE VENDOR**

The Vendor shall take out, maintain, and pay the premiums on Commercial General Liability Insurance, including but not limited to premises-operations, products-completed operations, and independent contractors' coverage, with contractual liability language covering the obligations assumed by the Vendor under this Contract and, if vehicles are to be used to carry out the performance of this Contract, then the Vendor shall also take out, maintain, and pay the premiums on Automobile Liability Insurance covering owned, non-owned, and hired autos in the following minimum limits:

Commercial General Liability Insurance - \$ 1 million combined single limit per occurrence for bodily injury and property damage liability.

Automobile Liability Insurance - \$ 1 million combined single limit per accident for bodily injury and property damage liability.

Garagekeepers' Legal Liability - \$300,000 per location in the Comprehensive Form (IF APPLICABLE)

In addition, the liability policy (ies) shall name The Port Authority of New York and New Jersey and its related entities as additional insured, including but not limited to premise-operations, products-completed operations on the Commercial General Liability Policy. Moreover, the Commercial General Liability Policy shall not contain any provisions for exclusions from liability other than provisions for exclusion from liability forming part of the most up to date ISO form or its equivalent unendorsed Commercial General Liability Policy. The liability policy (ies) and certificate of insurance shall contain cross-liability language providing severability of interests so that coverage will respond as if separate policies were in force for each insured. Furthermore, the Vendor's insurance shall be primary insurance as respects to the above additional insured (s), its representatives, officials, and employees. Any insurance or self insurance maintained by the above additional insured (s) shall not contribute to any loss or claim. These insurance requirements shall be in effect for the duration of the contract to include any warrantee/guarantee period.

The certificate of insurance and liability policy (ies) must contain the following endorsement for the above liability coverages:

"The insurer(s) shall not, without obtaining the express advance written permission from the General Counsel of the Port Authority, raise any defense involving in any way the jurisdiction of the Tribunal over the person of the Port Authority, the immunity of the Port Authority, its Commissioners, officers, agents or employees, the governmental nature of the Port Authority, or the provisions of any statutes respecting suits against the Port Authority."

The Vendor shall also take out, maintain, and pay premiums on Workers' Compensation Insurance in accordance with the requirements of law in the state(s) where work will take place, and Employer's Liability Insurance with limits of not less than \$1 million each accident.

Each policy above shall contain an endorsement that the policy may not be canceled, terminated, or modified without thirty (30) days' prior written notice to the Port Authority of New York and New Jersey, Att: Facility Contract Administrator, at the location where the work will take place and to the General Manager, Risk Management.

The Port Authority may at any time during the term of this agreement change or modify the limits and coverages of insurance. Should the modification or change result in an additional premium, The General Manager, Risk Management for the Port Authority may consider such cost as an out-of-pocket expense.

Within five (5) days after the award of this agreement or contract and prior to the start of work, the Vendor must submit an original certificate of insurance, to the Port Authority of NY and NJ, Facility Contract Administrator, at the location where the work will take place. This certificate of insurance MUST show evidence of the above insurance policy (ies), stating the agreement/contract number prior to the start of work. The General Manager, Risk Management must approve the certificate(s) of insurance before any work can begin. Upon request by the Port Authority, the Vendor shall furnish to the General Manager, Risk Management, a certified copy of each policy, including the premiums.

If at any time the above liability insurance should be canceled, terminated, or modified so that the insurance is not in effect as above required, then, if the Manager shall so direct, the Vendor shall suspend performance of the contract at the premises. If the contract is so suspended, no extension of time shall be due on account thereof. If the contract is not suspended (whether or not because of omission of the Manager to order suspension), then the Authority may, at its option, obtain insurance affording coverage equal to the above required, the cost of such insurance to be payable by the Vendor to the Port Authority.

Renewal certificates of insurance or policies shall be delivered to the Facility Vendor Administrator, Port Authority at least fifteen (15) days prior to the expiration date of each expiring policy. The General Manager, Risk Management must approve the renewal certificate(s) of insurance before work can resume on the facility. If at any time any of the certificates or policies shall become unsatisfactory to the Port Authority, the Vendor shall promptly obtain a new and satisfactory certificate and policy.

The requirements for insurance procured by the Vendor shall not in any way be construed as a limitation on the nature or extent of the contractual obligations assumed by the Vendor under this contract. The insurance requirements are not a representation by the Authority as to the adequacy of the insurance to protect the Vendor against the obligations imposed on them by law or by this or any other Contract.

CITS #4586N – TRAILER

## **9. OBLIGATION TO ORDER VEHICLE(S)**

Upon award of contract, the Contractor shall take all actions necessary to facilitate on-time delivery. The Contractor must submit written proof to the Engineer within 14 days after award of contract that the vehicle(s) have been ordered. This proof shall consist of valid purchase order(s) or factory order and acceptance with production slot information from the factory. Failure of the Vendor to place a valid and binding order within the 14 days, or to ensure that its dealer places a valid and binding order within 14 days, shall be cause for the Authority to cancel the contract without any further obligation to the Vendor.

## **10. TITLE TO UNITS**

Upon delivery and payment for each vehicle, all portions of the vehicle and all components installed on the vehicle, which had not previously become Port Authority property under the provisions the section entitled "Final Payment" shall become the property of the Port Authority. The Vendor shall furnish to the Port Authority all such bills of sale and certificates of title or origin and other instruments as may be required, assuring the Authority of title to all materials free of liens and other encumbrances.

## **11. PAYMENTS**

After delivery, receipt of an invoice and all other required documents, and acceptance by the Engineer of a unit, the Port Authority will advance to the Vendor within sixty (60) days a payment of an amount equal to the unit price as set forth in the Pricing Sheet.

The invoice and documents required to be submitted for each vehicle are as follows:

The invoice for the delivered vehicle, which shall indicate a full description of the vehicle, the cab-chassis' make and model, the vehicle identification number, and the Port Authority number.

A certificate of origin fully completed transferring title and ownership to the Port Authority of NY & NJ.

Two vehicle tests and certificates booklets as required by the section entitled "vehicle tests and certificates documentation".

The above invoice and certificate of origin shall serve to pass title of each complete vehicle to the Port Authority, free of liens, third party claims, or any other security interests.

## **12. FINAL PAYMENT**

The acceptance by the Vendor, or by anyone claiming by or through the Vendor, of the final payment hereunder shall be, and shall operate as, a release to the Port Authority of all claims and of all liability to the Vendor for all things done or furnished in connection with the contract and for every act and neglect, of the Authority or others relating to or arising out of the contract including claims arising out of breach of contract and claims based on claims of third persons.

The Vendor's agreement as provided in the immediately preceding paragraph above shall be deemed to be part of the consideration forming part of this contract as a whole and not to be gratuitous; but in any event even if deemed gratuitous and without consideration, such agreement as provided in the immediate preceding paragraph above shall nevertheless be enforceable. Such release shall include all claims, whether or not in litigation and even though still under consideration by the Authority. Such release shall be effective notwithstanding any purported reservation of rights by the Vendor to preserve such claim. The acceptance of any check designated as "final payment" or bearing any similar designation shall be conclusively presumed to demonstrate the intent of the Vendor that such payment was intended to be accepted as final, with the consequences provided in this numbered clause.

The Vendor agrees that he shall not be entitled to, and hereby waives any right he might otherwise have to, and shall not seek any judgment whether under this contract or otherwise for any such final payment or for an amount equivalent thereto or based thereon, or for any part thereof, if such judgment would have the effect of varying, setting aside, disregarding or making inapplicable the terms of this numbered clause or have the effect in any way of entitling the Vendor to accept such final payment or an amount equivalent thereto or based thereon or any part thereof other than the same fashion as a voluntary acceptance of a final payment subject to all the terms of this contract including this numbered clause, unless and until the Vendor should obtain a judgment on any claim arising out of or in connection with this contract (including a claim based on breach of contract) for an amount not included in said final payment. In any case in which interest is allowable on the amount of the final payment, such interest shall be at the rate of 6% per annum for the period, if any, in which such interest is due.

### **13. TIMES FOR PERFORMANCE**

The Vendor shall complete the performance of the delivery and acceptance of all of the units, as described in the clause hereof entitled "delivery." The Vendor's obligation for the performance within the times provided for in this agreement is of the essence of this agreement. The Vendor guarantees that he can and will complete such performance within the times hereinbefore stipulated or within the times as extended in accordance with the terms of this agreement.

Inasmuch as the damage and loss to the Authority, resulting from delay in completing the Vendor's performance within the times herein stipulated, will include items of loss whose amounts will be incapable or very difficult to accurately estimate, the damages to the Authority for each calendar day, by which the Vendor does not complete its performance within the times above stipulated, or within such times as extended in accordance with the terms of this agreement, shall be liquidated in the sum of five hundred dollars (\$500.00) per calendar day per vehicle for each day (including Saturdays, Sundays, and holidays) that the Vendor fails to meet the final date established for delivery of such vehicle.

### **14. INTELLECTUAL PROPERTY**

The right to use all patented materials, appliances, processes of manufacture or types of construction, trade and service marks and copyrights, collectively hereinafter referred to as the "intellectual property rights" in the performance of the work shall be obtained by the Vendor without separate or additional compensation. The Vendor shall indemnify the Port Authority against and save it harmless from all loss and expense incurred as a result of any claims in the nature of intellectual property rights infringement arising out of the Port Authority's use, in accordance with the immediately preceding statement, of any protected intellectual property rights. The Vendor, if requested, shall conduct all negotiations with respect to and defend such claims. If the Port Authority be enjoined either temporarily or permanently from the use of any subject matter as to which the Vendor is to indemnify the Port Authority against infringement, then the Port Authority may, without limiting any other rights it may have, require the Vendor to supply temporary or permanent replacement facilities approved by the Engineer, and if the Vendor fails to do so the Vendor shall, at its expense, remove all such enjoined facilities and refund the cost thereof to the Port Authority or take such steps as may be necessary to insure compliance by the Port Authority with said injunction, to the satisfaction of the Port Authority.

## **15. VENDOR'S WARRANTIES**

The Vendor represents and warrants:

- A.** That it is financially solvent, that it is experienced in and competent to perform the requirements of this contract, that the facts stated or shown in any papers submitted or referred to in connection with its proposal are true, and, if the Vendor be a corporation, that it is authorized to perform this contract;
- B.** That it has carefully examined and analyzed the provisions and requirements of this contract, and that from its own investigations it has satisfied itself as to the nature of all things needed for the performance of this contract, the general and local conditions and all other matters which in any way affect this contract or its performance, and that the time available to it for such examination, analysis, inspection and investigation was adequate;
- C.** That the contract is feasible of performance in accordance with all its provisions and requirements and that it can and will perform it in strict accordance with such provisions and requirements;
- D.** That no commissioner, officer, agent, or employee of the Authority is personally interested directly or indirectly in this contract or the compensation to be paid thereunder;
- E.** That, except only for those representations, statements or promises expressly contained in this contract, no representation, statement or promise, oral or in writing, of any kind whatsoever by the Authority, its commissioners, officers, agents, employees, or consultants has induced the Vendor to enter into this contract or has been relied upon by the Vendor, including any with reference to: (1) the meaning, correctness, suitability, or completeness of any provisions or requirements of this contract; (2) the nature, quantity, quality, or size of the materials, equipment, labor, and other facilities needed for the performance of this contract; (3) the general or local conditions which may in any way affect this contract or its performance; (4) the price of the contract; or (5) any other matters, whether similar to or different from those referred to in (1) through (4) immediately above, affecting or having any connection with this contract, the bidding thereon, any discussions thereof, the performance thereof or those employed therein or connected or concerned therewith.

## **16. RIGHTS OF THE PORT AUTHORITY**

If the Vendor is guilty of any breach hereof, the Port Authority shall be entitled:

- A. To withhold out of monies otherwise due such sums as the Engineer deems necessary to protect it from loss or delay and to apply such sums from the Vendor's account as the Engineer deems best to secure such protection.
- B. To have any work completed for the Vendor's account either itself or through others.
- C. To cancel this agreement as to all or any part of the uncompleted portion thereof.
- D. To obtain specific performance, an injunction or any other appropriate equitable remedy.
- E. To money damages
- F. To exercise any other appropriate right or remedy at law or in equity.

For the purpose of this agreement, breach shall include, but shall not be limited to, the following, whether or not the time has yet arrived for performance of an obligation under this agreement: a statement by the Vendor to the Authority indicating that it cannot or will not perform any one or more of its obligations under this agreement; any act or omission of the Vendor or any other occurrence which makes it improbable at the time that it will be able to perform any one or more of its obligations under this agreement; any suspension of or failure to proceed with any part of the work by the Vendor which makes it improbable at the time that it will be able to perform any one or more of its obligations under this agreement; any false certification at any time by the Vendor as to any material item certified pursuant to the clauses of Part II hereof (Contractor's Integrity Provisions), or the willful or fraudulent submission of any signed statement pursuant to such clauses which is false in any material respect; or the Vendor's incomplete or inaccurate representation of its status with respect to the circumstances provided for in such clauses.

The enumeration in this numbered clause or elsewhere in this agreement of specific rights and remedies of the Authority shall not be deemed to limit any other rights or remedies which the Authority would have in the absence of such enumeration or act as a waiver of any other of its rights or remedies not inconsistent therewith or to stop it from exercising such other rights or remedies.

## **17. RIGHTS OF THE VENDOR**

Inasmuch as the Vendor can be adequately compensated by money damages for any breach of this contract which may be committed by the Authority, the Vendor expressly agrees that no fault, act or omission of the Authority shall constitute a material breach of this contract, entitling him to cancel or rescind it or to suspend or abandon performance.

## **18. VENDOR NOT AN AGENT**

This Agreement does not constitute the Vendor the agent or representative of the Port Authority for any purpose whatsoever except as may be specifically provided in this Agreement. It is hereby specifically acknowledged and understood that the Vendor, in performing its services hereunder, is and shall be at all times an independent Vendor and the officers, agents and employees of the Vendor shall not be or be deemed to be agents, servants or employees of the Port Authority.

## **19. ASSIGNMENTS**

The Vendor shall not delegate, assign, or otherwise transfer this contract or any rights or obligations hereunder or any monies due or to become due hereunder without the express written consent of the Port Authority. The Vendor may, however, subcontract portions of the work to be performed provided that the Engineer expressly so permits in writing. No subcontractor shall have any rights against the Port Authority and all subcontractors shall be deemed the Vendor's agents.

No delegation of performance by the Vendor shall relieve the Vendor either of the duty to perform or of any liability for breach.

## **20. NO ESTOPPEL OR WAIVER**

The Authority shall not be precluded or estopped by any acceptance, certificate or payment, final or otherwise, issued or made under this contract or otherwise issued or made by it, the Engineer, or any officer, agent or employee of the Authority, from showing at any time the true amount and character of work performed, or from showing that any such acceptance, certificate or payment is incorrect or was improperly issued or made; and the Authority shall not be precluded or estopped, notwithstanding any such acceptance, certificate or payment, from recovering from the Vendor any damages which it may sustain by reason of any failure on his part to comply strictly with this contract, and any moneys which may be paid to him or for his account in excess of those to which he is lawfully entitled.

Neither the acceptance of the work or any part thereof, nor any payment therefore, nor any order or certificate issued under this contract or otherwise issued by the Authority, the Engineer, or any officer, agent or employee of the Authority, nor any permission or direction to continue with the performance of work, nor any performance by the Authority of any of the Vendor's duties or obligations, nor any aid lent to the Vendor by the Authority in his performance of such duties or obligations, nor any other thing done or omitted to be done by the Authority, its commissioners, officers, agents or employees shall be deemed to be a waiver of any provisions of this contract or of any rights or remedies to which the Authority may be entitled because of any breach thereof, excepting only a resolution of its commissioners, providing expressly for such waiver. No cancellation, rescission or annulment hereof, in whole or as to any part of the work, because of any breach hereof, shall be deemed a waiver of any money damages to which the Authority may be entitled because of such breach. Moreover, no waiver by the Authority of any breach of this contract shall be deemed to be a waiver of any other or any subsequent breach.

## **21. COMPLIANCE WITH RULES AND REGULATIONS**

The units shall comply with all the latest regulations and provisions of federal, State of New York, and State of New Jersey, ordinances, codes, rules, regulations, orders, permits, and licenses and with fire underwriter's requirements, which would be applicable if the Port Authority were a private corporation and as if these units were for over-the-road use, except that, where the requirements set forth in the specifications are more stringent, those specifications shall control.

In addition, the completed units shall comply with the latest published codes and regulations of the following:

- All applicable requirements set forth in 49CFR
- DOT (Department of Transportation), requirements
- FMVSS (Federal Motor Vehicle Safety Standards)
- Regulations of the States of New York and New Jersey
- Unit must meet all NJ, NY, and NY City Regulations (No Exceptions)
- ASME (American Society of Mechanical Engineers)
- SAE (Society of Automotive Engineers)
- National Electrical Code
- NFPA (National Fire Protection Association)
- National Fluid Power Association
- Port Authority regulations entitled: "The Port Authority Airport Rules And Regulations." A copy of "The Port Authority Airport Rules And Regulations" may be obtained by calling Aviation Technical Services at (212) 435-3696 or a copy may be obtained from the following location:

Port Authority of NY & NJ  
Aviation Department  
Aviation Technical Services  
225 Park Ave. South, 9<sup>th</sup> floor  
New York, N.Y. 10003

- All other rules and regulations as required or used in standard industry practices that govern the design for the efficient and proper function of the vehicle

## **22. ERRORS AND OMISSIONS**

If the Vendor discovers any errors or omissions in the specifications, in the drawings or in the work undertaken and executed by him, he shall immediately notify the Engineer and the Engineer shall promptly verify the same. If, with the knowledge of such error or omission and prior to the correction thereof, the Vendor proceeds with any work affected thereby, he shall do so at his own risk, and the work so done shall not be considered as work done under and in performance of this agreement unless and until approved and accepted.

### **23. MATERIALS AND WORKMANSHIP**

All equipment furnished and the parts thereof shall be the manufacturer's latest listed and published stock models, except where modification is specifically permitted or required. The equipment and parts shall meet all the applicable requirements of the Specifications.

Wherever a particular brand or make or model of material or equipment is shown or specified on the contract drawings or in the specifications (and whether or not the words "or approved equal", "similar", "equal to", or words of similar import are used), (except where specifically stated otherwise) any other brand or make and model may be substituted if, in the sole opinion of the Engineer, the equipment being substituted is equal to that shown or specified. The material or equipment may be substituted only after being submitted in writing to and expressly approved by the Engineer. Notwithstanding such approval, however, the Vendor assumes the risk that the substitute brand or make or model is not equal to that shown or specified. If at any time the substitute shall not appear to be so equal, the Vendor shall replace the substitute and reimburse the Authority for any loss occurring on account of the substitute failing to be so equal. Any such submission shall not imply or impose on the Engineer any obligation whatsoever to discuss, disclose, or justify the reasons for his opinion, approval, acceptance, or rejection. Furthermore, the acceptance of any other brand or make or model shall not in any way entitle the Vendor to additional compensation therefore, but the Authority may make such reduction in the vendor's compensation as may be equitably warranted because of such acceptance in lieu of the standard.

Whenever it is specified that sixty (60%) percent (value) of a vehicle's components and subcomponents are to have been produced in the United States or Canada, with final assembly taking place in the United States, the Vendor shall not substitute an equivalent make or model vehicle that does not meet that criteria, without prior express written approval of the Engineer.

After acceptance of the Vendor's proposal, no substitutions will be permitted, except that a substitute brand or make or model named in the Specifications may be submitted in writing to the Engineer for his approval.

All materials used shall be new unless otherwise specified. All design, workmanship, and materials shall at all times and places be subject to the inspection of the Engineer. Should they fail to meet his approval, they shall be forthwith made good, replaced, or corrected (as the case may be) by the Vendor at its own expense.

## **24. APPROVAL BY ENGINEER**

The approval by the Engineer of any workmanship, materials, drawings, designs, or details of construction of the unit shall be construed merely to mean that, at that time, the Engineer knows of no good reason for objecting thereto, and no such approval shall release the Vendor from his full responsibility for the satisfactory construction and operation of the unit.

The decision of the Engineer shall be final and binding on the parties as to the quality, acceptability, and fitness of all parts of the unit, as to conformity of the unit with, and as to the interpretation of, the specifications, drawings, and technical requirements of this agreement and as to all questions in connection with the work hereunder.

Whenever the words "approved," "required," "satisfactory," "necessary," "equal," or words of similar import are used in this agreement, they shall mean approved or required by the Engineer and satisfactory, necessary, or equal in the opinion of the Engineer.

## **25. VEHICLE WARRANTIES**

The Vendor warrants and guarantees each vehicle against any defects in design, workmanship, and materials and against failure to operate satisfactorily for a minimum period of one (1) year from the date on which the vehicle is placed in-service, other than defects or failures shown by the Vendor to have arisen solely from accident or abuse occurring after acceptance by the Engineer, and agrees to replace any part or parts, which in the opinion of the Engineer shall fail for the above reasons. In addition, if at any time after the above warranty periods any defects arise or are found in the design of the vehicles, the Vendor shall inspect the causes in detail at the Port Authority facility, report its findings to the Engineer, and correct the defects as required and in agreement with the Engineer. All repairs shall be performed within 24-hours of reporting a warranty repair item, and if a longer time is needed because of parts, redesign, or testing, additional time may be granted if the Vendor demonstrates that it is taking every possible step to resolve all issues and submits a letter indicating an estimated completion date. The Vendor shall be responsible for all costs (including parts, labor, vehicle transportation charges, etc.) Required to perform any warranty work or to correct any defects. If any warranty work or work required to correct any defects requires transporting the vehicle back to the Vendor's plant or to any other shop, the Vendor shall be responsible for all costs and making the proper arrangements in a timely manner. In addition, after delivery of each vehicle, if the vehicle is to be transported out of the any Port Authority facility, the Vendor shall be fully as responsible for each complete vehicle in his possession as he was prior to its receipt by the Authority and shall provide all vehicle liability insurance as required by the Port Authority, covering the vehicle(s) until re-delivery to and acceptance.

Notwithstanding the specific requirements of this agreement, any inspection or acceptance of the vehicle, the foregoing warranty, or the existence of any patent or trade name, the Vendor nevertheless warrants and represents that the vehicle shall be of the best quality and shall be fully fit for the purposes for which it is to be used. The foregoing warranty shall not, however, be a limitation on any rights, which the Port Authority would have, either expressed or implied, in connection with this agreement in the absence of such guaranty, the said guaranty being given only for the greater assurance of the Port Authority.

In the event of a failure which places the vehicle in an "out of service" status, as determined by the Engineer, the Vendor agrees to perform an inspection within twenty-four (24) hours after the Engineer notifies the Vendor of such failure. Upon determination by the Engineer that the failure is to be repaired by the Vendor under this warranty, the Vendor agrees to either replace the failed component or repair it, the repair of same to commence within twenty-four (24) hours after the determination of the Engineer. In the event that the component is to be replaced, the Vendor agrees to have the replacement item shipped within twenty-four (24) hours after the Engineer's determination.

## **26. AVAILABILITY OF SPARE PARTS**

The Vendor warrants that it shall maintain, or have maintained, a stock of spare parts at inventory levels for the period described in the immediately following paragraph.

The Vendor shall itself, or through a dealer, supply (at prices not in excess of those charged any other owners of vehicles), spare parts required to support the units to be supplied hereunder for ten (10) years from the date of delivery of the last vehicle. These parts shall be available within 72 hours of placement of an order. In order to meet this requirement, the Vendor may maintain a spare parts outlet or contract with a customs broker to expedite the customs clearance of foreign parts. It shall, however, remain the responsibility of the Vendor to meet the 72-hour delivery requirement.

## **27. PARTS INTERCHANGEABILITY:**

All components of each unit in this order shall be identical; i.e., alternators, filters, distributors, hydraulic pumps, hydraulic valves, etc.

## **28. PRINCIPLES OF DESIGN**

These vehicles must be designed for maximum safety, reliability, and ease of operation. Every effort is to be taken by the manufacturer to assure that the principles of human Engineering and ergonomics are designed into the functional controls of the vehicle. Systems on the unit shall incorporate the use of fail-safe design to assure maximum safety while in operation. Adequate redundancy must be built into any system as deemed necessary. Specific applications of these principles will be evidenced in design criteria including:

- A. The vehicle weight distribution shall be properly distributed with a laden or unladen vehicle to provide the proper loading on all axles, and provide the vehicle with the proper traction, steering, other driveability factors.
- B. All bolts, washers, and nuts used to assemble all structural components and any high fatigue parts shall be Grade 8 with elastic self-locking type nuts. All bolts, washer, and nuts used shall be manufactured in the United States of America.
- C. All electronic system wiring shall be properly shielded as required to assure that circuits are not affected by other vehicle systems or any external interferences.
- D. All vehicle components and systems shall operate without being affected by interference damage or disruption including detrimental effects or interference to on-board computer modules from either vehicle generated noise, or stray Electromagnetic Frequency ("EMF") or Radiomagnetic Frequency ("RMF") fields encountered from

any airport operations. EMF and RMF noise sources that may be generated by the vehicle, especially if such noise is detrimental to aircraft, Air Traffic Control, or air navigation equipment, shall be shielded. In the event a unit is found to create or encounter EMF or RMF problems, the Vendor will be responsible for remedying the problem to the satisfaction of the Authority.

- E.** All systems shall be designed to allow quick and efficient operation of the unit. Pneumatic, electrical, electronic, hydraulic, and other systems shall be operational within a minimum amount of temperature stabilization, and accumulator or system build-up.
- F.** All operating controls, light switches, and controls for auxiliary equipment shall be clearly and permanently marked and identified by means of resistant plastic identification plates with recessed lettering of a contrasting color. Should be powered to run with the ignition in a key on position.
- G.** The use of pilot lights or indicators for all controls or switches.
- H.** Venting systems for vehicle fuel, coolant, hydraulics, etc., shall not discharge or vent over any equipment, but shall direct such overflows to a suitable recovery system in order not to cause an environmental spill.
- I.** All emergency shut-off valves shall be properly identifiable, as to location and operation.
- J.** All controls shall be immediately identifiable as to the correct positioning by logic of operation or clear indications.
- K.** All gauges shall be suitably marked as to the intended purpose and shall be easily visible by the operator.
- L.** All systems requiring servicing shall be equipped with approved self-contained checking devices. The preferred check device for hydraulic system reservoir shall be sight gauges that are clearly marked to show service level and type of fluid. Pressure gauges shall be installed on accumulators, on all other components, or elsewhere as required with easily connectable service ports in close proximity.
- M.** Diesel engine(s) shall be approved for continuous operation using fuel meeting specifications for No. 1 or No. 2 diesel as set forth in ASTM D-976 combined with 20% Biodiesel meeting specification ASTM D 6751 for Biodiesel fuel. If these fuels require additives or involve restrictions all such requirements, restrictions, and concerns are to be detailed in the exceptions or deviations section of the bid, and instructions for such additives or instructions shall be detailed in a placard or decal located at the fuel fill location as close to the fill neck as practical.
- N.** Steps, stairways, ladders walkways handholds, handrails, and used to access the cab, maintenance and operational areas or other parts of the equipment shall conform to the most recent edition of SAE J185 – Access Systems for Off-Road Machines, using the ‘preferred’ dimensions offered in this standard

## **29. ACCESSIBILITY OF COMPONENTS**

All parts of the unit and auxiliary equipment shall be easily accessible for inspection, operation, and maintenance. All electrical components shall be centrally located and enclosed in an airtight weatherproof electrical box. All air system components shall also be centrally located and marked. All components shall be readily removable and replaceable. These features are considered mandatory and the unit will be closely inspected to assure conformance with these requirements.

If, in the opinion of the Engineer, any part or component is not readily accessible, removable, or replaceable, the Engineer may require the Vendor to correct these deficiencies at the Vendor's own expense, before acceptance. Any departure from the requirements of these specifications shall be immediately remedied by the Vendor at his own expense.

## **30. MARKING OF CONTROLS**

All operating controls, light switches, and accessory equipment that may be installed on the unit shall be clearly and permanently marked and identified by a metal or oil resistant plastic identification plates with stamped recessed lettering filled with a contrasting color paint. The lettering for the instrument panel controls shall be approximately one-half (1/2) inch high and approximately one (1) inch high for all other locations. The above shall apply to all controls. All switches shall be "on" in the up position.

## **31. IDENTIFICATION CARDS**

Each delivered vehicle shall have a 5" x 9" index card affixed to the inside of the windshield. This card shall contain the following information and shall be visible from the outside of the vehicle:

Vendor's Name  
Purchase Order Number  
Make & Model  
Port Authority Engineer's Name (listed on purchase order)  
Vehicle Identification Number (VIN)

## **32. SERVICING BEFORE DELIVERY (MAKE-READY)**

Prior to delivery, each vehicle shall be completely serviced by the Vendor in its shop, including engine tune-ups, lubrication, and wheel alignment. Equipment with water-cooled engines being delivered shall be protected with permanent anti-freeze to a minimum of -40°F. The anti-freeze shall contain corrosion inhibitors. All systems on the unit shall be fully serviced and filled with all required fluids, and be ready for the full in-service operation. A copy of the Vendor's final inspection form shall be forwarded to the Engineer with the invoice.

### **33. CERTIFICATE OF ORIGIN**

The Vendor shall submit to the Engineer seven (7) days before delivery of each unit, the certificate of origin for a vehicle. This certificate shall be fully completed so as to enable the transfer of ownership to the Port Authority of NY & NJ.

If the Vendor or the truck dealer is based in the state of New York, the Vendor shall also submit with the above certificate of origin, the New York State Certificate Of Sale, form MV-50, fully completed.

If the Vendor or the truck dealer is based in the state of New Jersey, the Vendor, in addition to submitting the above certificate of origin, must conform to New Jersey state motor vehicle requirements.

The above document(s) shall be sent to:

The Port Authority of NY & NJ  
Port Authority Technical Center  
Central Automotive Division  
241 Erie Street, Room 307  
Jersey City, New Jersey 07310-1397  
Attn: Frank A. Barbato

All licensing documents shall be sent to the above address but shall show the legal address as follows:

The Port Authority of NY & NJ  
225 Park Avenue South  
New York, NY 10003

### **34. DEVIATIONS**

Minor deviations from the provisions of these specifications will be considered, to permit manufacturers to follow their standard manufacturing processes. Whenever it is specified that sixty (60%) percent (value) of a vehicle's components and subcomponents are to have been produced in the United States or Canada, with final assembly taking place in the United States, the Vendor shall not substitute an equivalent make or model vehicle that does not meet that criteria, without requesting such deviation, which shall only be permitted upon prior express written approval of the Engineer.

Such deviations will be approved, however, only in the sole discretion of the Engineer and only if in his opinion they do not adversely affect the operation, maintenance, strength, efficiency, effectiveness, or life of the unit or any of its parts. All proposed deviations, with full details, must be listed on the attached Vendor's detail sheet, which is part of the bid.

There shall be no deviations from the specifications, except those which are listed as deviations and which are expressly approved as part of the Port Authority's acceptance of the Contract. See the clause hereof entitled "Materials and Workmanship".

### **35. QUALITY CONTROL**

Critical components and the complete unit must demonstrate compliance with these specifications. The Vendor shall be responsible for assuring the quality control of his suppliers and shall arrange for the required tests, certifications, and for the test location and all equipment required for testing. The Vendor shall notify the Engineer when major components are ready for testing, and the Engineer will decide whether representatives of the Authority will be present at the tests.

The Vendor shall develop and submit for the Engineer's approval test plans covering all tests required to be performed hereunder. All such tests shall be performed in accordance with the approved plans.

If the unit or any component fails a test, the unit or component must be retested when the deficiencies have been corrected. The Engineer may at his sole discretion require extra testing of the failed unit or component or of all units or components to assure that the noncompliance was not the result of a design error or indicative of the inability of the unit or component to withstand the intended service.

The Port Authority shall have the option of witnessing the following specific tests on randomly selected finished vehicles to assure that they meet minimum performance requirement:

- A. Vehicle driveability to include vehicle weight distribution, braking, top speed, etc.
- B. Interlock and parking brake system
- C. Other tests as specified elsewhere in these specifications, required, or as requested by the Engineer.

### **36. RISKS ASSUMED BY THE VENDOR**

The Vendor assumes the following distinct and several risks, whether they arise from acts or omissions (whether negligent or not) of the Vendor, of the Authority, or of third persons, or from any other cause, and whether such risks are within or beyond the control of the Vendor, excepting only risks which arise solely from affirmative acts done by the Authority subsequent to the opening of proposals on this contract with actual and willful intent to cause the loss, damage and injuries described below:

- A. The risk of loss or damage to each unit and all its component parts (including parts furnished by the Authority, from the time the Vendor takes possession of such parts), occurring prior to the time the Authority takes title to such unit or occurring subsequent to the transfer of title if such unit is in the possession of the Vendor for the performance of services required hereunder.
- B. The risk of claims, fines or penalties, just or unjust, made by third persons or assessed by courts or governmental agencies or entities against the Vendor or the Authority on account of injuries (including wrongful death), loss, damage or liability of any kind whatsoever arising or alleged to arise out of or in connection with the performance of this contract (whether or not actually caused by or resulting from the performance of this contract) or out of or in connection with the Vendor operations or presence at or in the vicinity of any Authority premises, including claims against the Vendor or the Authority

for the payment of workers' compensation, whether such claims, fines or penalties are made or assessed and whether such injuries, damage, loss or liability are sustained at any time both before and after final payment.

The Vendor shall indemnify the Authority against all claims described in subparagraphs (a) and (b) above and for all expenses incurred by it in the defense, settlement or satisfaction thereof, including expenses of attorneys, except where indemnity would be precluded by applicable law. If so directed, the Vendor shall defend against any claim described in subparagraphs (a) and (b) above, in which event it shall not without obtaining express advance permission from the General Counsel of the Authority raise any defense involving in any way jurisdiction of the tribunal, immunity of the Authority, governmental nature of the Authority or the provisions of any statutes respecting suits against the Authority, such defense shall be at the Vendor's cost.

The provisions of this numbered clause shall also be for the benefit of the commissioners, officers, agents and employees of the Authority, so that they shall have all the rights which they would have under this numbered clause if they were named at each place above at which the Authority is named, including a direct right of action against the Vendor to enforce the foregoing indemnity, except, however, that the Authority by action of its board of commissioners may at any time in its sole discretion and without liability on its part cancel the benefit conferred on any of them by this numbered clause, whether or not the occasion for invoking such benefit has already arisen at the time of such cancellation.

The making of final payment shall not release the Vendor from his obligations under this numbered clause. Moreover, neither the enumeration in this numbered clause nor the enumeration elsewhere in this contract of particular risks assumed by the Vendor or of particular claims for which he is responsible shall be deemed (1) to limit the effect of the provisions of this numbered clause or of any other clause of this contract relating to such risks or claims, (2) to imply that he assumes or is responsible for risks or claims only of the type enumerated in this numbered clause or in any other clause of this contract, or (3) to limit the risks which he would assume or the claims for which he would be responsible in the absence of such enumerations.

### **37. HIGH SECURITY AREAS**

Services under the Contract may be required in designated secure areas, as the same may be designated by the Manager from time to time ("Secure Areas"). The Port Authority shall require the observance of certain security procedures with respect to Secure Areas, which may include the escort to, at, and/or from said high security areas by security personnel designated by the Contractor or any subcontractor's personnel required to work therein. All personnel that require access to designated secure areas who are not under positive escort by an authorized individual will be required to undergo background screening and personal identity verification.

Forty-eight (48) hours prior to the proposed performance of any work in a Secure Area, the Vendor shall notify the Manager. The Vendor shall conform to the procedures as may be established by the Manager from time to time and at any time for access to Secure Areas and the escorting of personnel hereunder. Prior to the start of work, the Vendor shall request a description from the Manager of the Secure Areas which will be in effect on the commencement date. The description of Secure Areas may be changed from time to time and at any time by the Manager during the term of the Contract.

### **38. NOTIFICATION OF SECURITY REQUIREMENTS**

The Authority has the responsibility of ensuring safe, reliable and secure transportation facilities, systems, and projects to maintain the well-being and economic competitiveness of the region. Therefore, the Authority reserves the right to deny access to certain documents, sensitive security construction sites and facilities (including rental spaces) to any person that declines to abide by Port Authority security procedures and protocols, any person with a criminal record with respect to certain crimes or who may otherwise poses a threat to the construction site or facility security. The Authority reserves the right to impose multiple layers of security requirements on the Contractor, its staff and subcontractors and their staffs depending upon the level of security required, or may make any amendments with respect to such requirements as determined by the Authority.

These security requirements may include but are not limited to the following:

- Contractor/ Subcontractor identity checks and background screening

The Port Authority's designated background screening provider may require inspection of not less than two forms of valid/current government issued identification (at least one having an official photograph) to verify staff's name and residence; screening federal, state, and/or local criminal justice agency information databases and files; screening of any terrorist identification files; access identification to include some form of biometric security methodology such as fingerprint, facial or iris scanning, or the like.

The Contractor may be required to have its staff, and any subcontractor's staff, material-men, visitors or others over whom the Contractor/subcontractor has control, authorize the Authority or its designee to perform background checks, and a personal identity verification check. Such authorization shall be in a form acceptable to the Authority. The Contractor and subcontractors may also be required to use an organization designated by the Authority to perform the background checks.

As of January 29, 2007, the Secure Worker Access Consortium (S.W.A.C.) is the only Port Authority approved provider to be used to conduct background screening and personal identity verification, except as otherwise required by federal law and/or regulation (such as the Transportation Worker Identification Credential for personnel performing in secure areas at Maritime facilities). Information about S.W.A.C., instructions, corporate enrollment, online applications, and location of processing centers can be found at <http://www.secureworker.com>, or S.W.A.C. may be contacted directly at (877) 522-7922 for more information and the latest pricing. The cost for said background checks for staff that pass and are granted a credential shall be reimbursable to the Contractor (and its subcontractors) as an out-of-pocket expense as provided herein. Staff that are rejected for a credential for any reason are not reimbursable.

- Issuance of Photo Identification Credential

No person will be permitted on or about the Authority construction site or facility (including rental spaces) without a facility-specific photo identification credential approved by the Authority. If the authority requires facility-specific identification credential for the Contractor's and the subcontractor's staff, the Authority will supply such identification at no cost to the Contractor or its subcontractors. Such facility-specific identification credential shall remain the property of the Authority and shall be returned to the Authority at the completion or upon request prior to completion of the individual's assignment at the specific facility. It is the responsibility of the appropriate Contractor or subcontractor to immediately report to the Authority the loss of any staff member's individual facility-specific identification credential. The Contractor or subcontractor shall be billed for the cost of the replacement identification credential. Contractor's and subcontractor's staff shall display Identification badges in a conspicuous and clearly visible manner, when entering, working or leaving an Authority construction site or facility.

Employees may be required to produce not less than two forms of valid/current government issued identification having an official photograph and an original, unlaminated social security card for identify and SSN verification. Where applicable, for sensitive security construction sites or facilities, successful completion of the application, screening and identify verification for all employees of the Contractor and subcontractors shall be completed prior to being provided a S.W.A.C. ID Photo Identification credential.

- Access control, inspection, and monitoring by security guards

The Authority may provide for Authority construction site or facility (including rental spaces) access control, inspection and monitoring by Port Authority Police or Authority retained contractor security guards. However, this provision shall not relieve the Contractor of its responsibility to secure its equipment and work and that of its subconsultant/subcontractor's and service suppliers at the Authority construction site or facility (including rental spaces). In addition, the Contractor, subcontractor or service provider is not permitted to take photographs, digital images, electronic copying and/or electronic transmission or video recordings or make sketches on any other medium at the Authority construction sites or facilities (including rental spaces), except when necessary to perform the Work under this Contract, without prior written permission from the Authority. Upon request, any photograph, digital images, video recording or sketches made of the Authority construction site or facility shall be submitted to the Authority to determine compliance with this paragraph, which submission shall be conclusive and binding on the submitting entity.

- Compliance with the Port Authority Information Security Handbook

The Contract may require access to Port Authority information considered Confidential Information ("CI") as defined in the Port Authority Information Security Handbook ("Handbook"), dated October, 2008, corrected as of February, 2009, and as may be further amended. The Handbook and its requirements are hereby incorporated into this agreement and will govern the possession, distribution and use of CI if at any point during the lifecycle of the project or solicitation it becomes necessary for the Contractor to have access to CI. Protecting sensitive information requires the application of uniform safeguarding measures to prevent unauthorized disclosure and to control any authorized disclosure of this information within the Port Authority or when released by the Port Authority to outside entities. The following is an outline of some of the procedures, obligations and directives contained in the Handbook:

- (1) require that the Contractor and subcontractors, when appropriate, sign Non-Disclosure Agreements (NDAs), or an Acknowledgment of an existing NDA, provided by the Authority as a condition of being granted access to Confidential Information categorized and protected as per the Handbook;
- (2) require that individuals needing access to CI be required to undergo a background check, pursuant to the process and requirements noted in § 3.2 of the Information Security Handbook.
- (3) require Contractors and commercial enterprises to attend training to ensure security awareness regarding Port Authority information;
- (4) specific guidelines and requirements for the handling of CI to ensure that the storage and protection of CI;
- (5) restrictions on the transfer, shipping, and mailing of CI information;
- (6) prohibitions on the publication, posting, modifying, copying, reproducing, republishing, uploading, transmitting, or distributing CI on websites or web pages. This may also include restricting persons, who either have not passed a pre-screening background check, or who have not been granted access to CI, from viewing such information;
- (7) require that CI be destroyed using certain methods, measures or technology pursuant to the requirements set forth in the Handbook;
- (8) require the Contractor to mandate that each of its subcontractors maintain the same levels of security required of the Contractor under any Port Authority awarded contract.
- (9) prohibit the publication, exchange or dissemination of CI developed from the project or contained in reports, except between Contractors and subcontractors, without prior approval of the Port Authority;
- (10) require that CI only be reproduced or copied pursuant to the requirements set forth in the Handbook.

- Audits for Compliance with Security Requirements

The Port Authority may conduct random or scheduled examinations of business practices under this section entitled "NOTIFICATION OF SECURITY REQUIREMENTS" and the Handbook in order to assess the extent of compliance with security requirements, Confidential Information procedures, protocols and practices, which may include, but not be limited to, verification of background check status, confirmation of completion of specified training, and/or a site visit to view material storage locations and protocols.

### **39. EQUAL EMPLOYMENT OPPORTUNITY, AFFIRMATIVE ACTION, NON-DISCRIMINATION**

- A. The Vendor is advised to ascertain and comply with all applicable federal, State and local statutes, ordinances, rules and regulations and, federal Executive Orders, pertaining to equal employment opportunity, affirmative action, and non-discrimination in employment.
- B. Without limiting the generality of any other term or provision of this Contract, in the event of the Vendor's non-compliance with the equal opportunity and non-discrimination clause of this Contract, or with any of such statutes, ordinances, rules, regulations or Orders, this Contract may be cancelled, terminated or suspended in whole or in part.

#### **40. SHIPMENT**

The Vendor shall ship the units under bills of lading designating the consignee as the Port Authority of New York and New Jersey, c/o Vendor, said bills of lading to provide that the Vendor will pay the insurance and freight charges, and the Port Authority will be the named insured on said insurance but risk of loss or damage until delivery shall be the Vendor's. In such case, the Vendor's obligations under the clause entitled "Risks Assumed by the Vendor" shall not be impaired.

If the Vendor's plant is located more than four hundred (400) miles from the designated delivery point, the Vendor shall ship the unit(s) by railroad or flatbed truck and the Vendor's obligations under the clauses entitled, "delivery" and "risks assumed by the Vendor" shall not be impaired.

If the Vendor's plant is more than four hundred (400) miles from the designated delivery point, at the Vendors request the Engineer may approve over-the-road transportation of the completed unit to the Port Authority, with an associated cost savings. In all such instances, the Vendor must utilize his own drivers, or the services of a licensed and bonded driveaway service having a Federal Motor Carrier Safety Administration rating of not less than "Satisfactory". In addition, his driver or the driveaway service must be specifically instructed, in writing, with copies provided to the Engineer prior to approval, as to all truck chassis, power train, tire, and other manufacturer's restrictions on speed, fuel, continuous hours of operation, and any other 'break-in' or operational restrictions. A driver's log and receipts shall be provided demonstrating compliance with the above stated restrictions. Finally, the vehicle must be cleaned, fueled, and prepared in accordance with requirements of this contract after transportation and prior to delivery to the Port Authority.

#### **41. NO THIRD PARTY RIGHTS**

Nothing contained in this agreement is intended for the benefit of third persons except to the extent that this agreement specifically provides otherwise by use of the words "benefit" or "direct right of action."

#### **42. DELIVERY**

The Vendor shall deliver vehicle(s) to the delivery location(s) indicated in the table located in Paragraph 51 hereof. If the Engineer requests for the Vendor to drop-ship the cab-chassis' or vehicle(s) to an alternate delivery location(s), the Vendor shall be responsible to make all necessary arrangements for the delivery(ies), and the Vendor and the Engineer shall mutually agree on any cost adjustments for delivery to the alternate delivery location.

The Vendor shall deliver the unit(s) complete and ready for service, within 120 calendar days commencing from the Port Authority Purchase Order Date after receipt, by it, of the acceptance of its proposal.

The Vendor shall develop and maintain a weekly updated manufacturing and delivery schedule. Upon request, the Vendor shall submit to the Engineer, within two (2) days of the request, a copy of the updated manufacturing and delivery schedules.

The vehicles shall be shipped for sidewalk delivery to the location(s) indicated in the table at the end of this Appendix. Sidewalk delivery is defined as the Vendor's responsibility for removing the vehicles from the truck and placement onto the ground at a location designated by receiving personnel.

Vehicles shipped by other than the Vendor's own truck shall not abrogate this responsibility. The Port Authority shall not be responsible for re-delivery charges as a result of failure to comply with this clause. Port Authority personnel will not be available to assist in off-loading vehicles.

The Vendor shall notify the Engineer of delivery, at least three (3) working days in advance. The deliveries shall be made to the location(s) indicated in the table at the end of this appendix.

All deliveries shall be made during the hours of 9:00 am to 2:00 pm Monday through Friday excluding holidays celebrated in the state of delivery. The equipment shall be deemed to have been delivered only if it is complete and in readiness for use and if it meets with the acceptance of the Engineer as elsewhere provided in this agreement. The times above-provided for delivery may be extended (subject, however, to the provisions of this numbered clause) only if in the opinion of the Engineer the Vendor is necessarily delayed in delivery solely and directly by a cause which meets both of the following conditions:

- A. Such cause is beyond the Vendor's control and arises without his fault.
- B. Such cause arises after the opening of proposals on this agreement and neither was, nor could have been, anticipated by investigation before such opening.

The Vendor shall provide the above conditions in writing and shall have an approval by the Engineer in writing. In any event, even though a cause of delay meets the above conditions, an extension shall be granted by the Engineer only to the extent that:

- C. The delivery is actually and necessarily delayed.
- D. The effect of such cause cannot be anticipated and avoided or mitigated by the exercise of all reasonable precautions, efforts, and measures (including planning, scheduling, and re-scheduling) whether before or after the occurrence of the cause of delay.

Notwithstanding the above, no extension of time shall be granted for a delay which would not have affected the time of delivery were it not for the fault of the Vendor or for other delay for which the Vendor is not entitled to an extension of time.

Any reference herein to the Vendor shall be deemed to include subcontractors and materialmen, whether or not in privity of contract with the Vendor, and employees of all the foregoing. Therefore, the Vendor shall be charged with a delay caused by a subcontractor, materialmen or their employees.

The period of any extension of time shall be that necessary to make up the time actually lost, subject to the provisions of this numbered clause, and shall be only for those units actually delayed. The Engineer may defer all or part of his decision on an extension, and any extension may be rescinded or shortened if it subsequently is found that the delay can be overcome or reduced by the exercise of reasonable precautions, efforts, and measures.

As a condition precedent for an extension of time, the Vendor shall give written notice to the Engineer within forty-eight hours after the time when he knows or should know of a cause which might under any circumstances result in delay for which he claims or may claim an extension of time (including those causes for which the Authority is responsible or has knowledge of). The written notice shall specifically state that an extension is or may be claimed and shall identify such cause and describe, as fully as practicable at the time, the nature and expected duration of the delay and its effect on the delivery of various units. Since the possible necessity for an extension of time may materially alter the scheduling, plans, and other actions of the Authority, and since, with sufficient opportunity, the Authority might, if it so elects, attempt to mitigate the effect of a delay for which an extension of time might be claimed, and since merely oral notice may cause disputes as to the existence or substance thereof, the giving of written notice as above required shall be of the essence of the obligations of the Vendor, and failure of the Vendor to give written notice as above required shall be a conclusive waiver of an extension of time.

It shall in all cases be presumed that no extension, or further extension, of time is due unless the Vendor shall affirmatively demonstrate to the satisfaction of the Engineer that it is due. To this end, the Vendor shall maintain adequate records supporting any claim for an extension of time and, in the absence of such records, the foregoing presumption shall be deemed conclusive.

It is the intent of this agreement that the Vendor shall assume the responsibility for manufacturing the units in a manner acceptable to the Engineer and, consequently, no disapproval by the Engineer of any drawings submitted by the Vendor or of any other act or omission of the Vendor shall be cause for an extension of time.

The Vendor assumes the risk of damages due to delay arising from any acts and causes whatsoever, including, but not limited to, wrongful acts and omissions of the Authority, its officers, employees, Vendors, and agents, and its sole remedy against the Authority shall be an extension of time as set forth herein.

#### **43. APPROVAL BY ENGINEER**

The approval by the Engineer of any workmanship, materials, drawings, designs, or details of construction of the unit shall be construed merely to mean that, at that time, the Engineer knows of no good reason for objecting thereto, and no such approval shall release the Vendor from his full responsibility for the satisfactory construction and operation of the unit.

The decision of the Engineer shall be final and binding on the parties as to the quality, acceptability, and fitness of all parts of the unit, as to conformity of the unit with, and as to the interpretation of, the specifications, drawings, and technical requirements of this agreement and as to all questions in connection with the work hereunder.

Whenever the words "approved," "required," "satisfactory," "necessary," "equal," or words of similar import are used in this agreement, they shall mean approved or required by the Engineer and satisfactory, necessary, or equal in the opinion of the Engineer.

#### **44. OPERATION, MAINTENANCE, REPAIR DATA AND PROPRIETARY DIAGNOSTIC EQUIPMENT AND PROGRAMS**

The Vendor shall provide operations, parts and service manuals. The manuals shall cover the diagnosis and repair of all vehicle systems, specifically including, chassis, powertrain, wiring, emissions, vocational equipment, and all subsystems and components. Manuals shall be provided electronically on cd-roms, and if cd-roms are not available, on microfiche, or as bound "hard" copies if not available electronically. All paper manuals shall be bound and assembled. Manuals are to be shipped per delivery instructions (see attached appendix). Do not ship the manuals with the unit.

The operating and maintenance or shop manual shall be the latest manufacturer's handbook, covering in detail the recommended operating, maintenance, and service procedures.

The repair or shop manual shall include detail drawings, schematic electric and hydraulic or other piping diagrams, and complete parts lists for all components of the unit and associated equipment furnished. The Vendor shall include a complete set of shop drawings as part of each shop manual.

Where components or equipment of several manufacturers have been used in assembling the unit, the manuals shall include operating, maintenance, and repair manuals and parts lists of all manufacturers, covering all of the components used.

Where the Vendor or manufacturer uses components manufactured by others in building equipment which it sells under its own trade name, the Vendor shall furnish the parts numbers and full data from the original manufacturers for all components used, as well as the part numbers it may assign to these components as being parts of its product.

In addition to the manuals, all proprietary diagnostic tools, equipment, software and programs (solely provided by the manufacturer and not available as an aftermarket product) shall be provided as recommended by the manufacturer for diagnostics and maintenance of the unit(s). When such diagnostic tools, equipment, software and programs require updating, maintenance contracts, or subscriptions, the Vendor will offer such services to the Port Authority as though the Port Authority was a dealer or distributor, at dealer or distributor pricing, for as long as the vehicles are owned by the Port Authority.

The manuals diagnostic tools, equipment, software and programs shall be furnished in sets. Each set shall include an operator's manual, parts catalog, shop repair manual, and diagnostic tools, equipment, software and programs.

The total number of sets of manuals diagnostic tools, equipment, software and programs furnished under these specifications shall be as designated in the Table in Paragraph 51.

All manuals shall be in the English language. All dimensions, measurements, and other pertinent data shall be given in U.S. Standard units (i.e., inches, pounds, etc.). (foreign language terms and metric measurements shall not be accepted.)

All technical support documentation diagnostic tools, equipment, software and programs required by this section shall be delivered at least two weeks prior to the delivery of the first unit. In the event the manuals diagnostic tools, equipment, software and programs are not delivered as specified above, a retainage amount of 10% will be held by the Port Authority from any payments due under the clause entitled "Final Payments", and will be held until

such time that all of the required documentation has been received to the satisfaction of the engineer.

The Vendor shall send Parts & Service Manuals diagnostic tools, equipment, software and programs directly to the Port Authority Automotive Shops, as designated at the end of this section. Vendors shall send to the engineer receipts of delivery from each shop, to expedite payment release.

The manuals diagnostic tools, equipment, software and programs shall be shipped separately and not with the vehicles. Final payment will not be released prior to receipt of these materials.

**45. PREVENTIVE MAINTENANCE INSTRUCTIONS**

In addition to the manuals specified above, the Vendor shall furnish an equal number of condensed preventive maintenance frequency and instructions for each preventative maintenance routine required for the unit. These frequencies and instructions shall consist of manufacturer's recommendations for periodic lubrication, cleaning, and other preventive maintenance, and shall be made up in a compact form to cover the particular unit delivered. The Preventative Maintenance Instructions must include a listing of all part numbers and part descriptions necessary to perform the specific preventative maintenance task such as filter descriptions and part numbers, special tools needed to perform the task, and replacement fluid specifications and quantities.

**46. DELIVERY LOCATIONS FOR VEHICLES AND MANUALS**

The Vendor shall deliver vehicle(s) and parts and service manuals directly to the Port Authority automotive shops, as designated below. Vendors shall send to the Engineer receipts showing delivery of vehicles and manuals from each shop. Payment will not be released without these documents.

## **RIGHT TO PURCHASE ADDITIONAL UNIT(S)**

As used in this clause:

“Model Year” shall mean the vehicle model year of the manufacturer of the vehicles ending on the production cut-off date for the vehicles. In the event there is no defined model year or production cut-off date for the vehicles, then for purposes of this numbered clause “model year” shall mean the period commencing on the date of the Port Authority’s acceptance of the Vendor’s bid and ending on the three hundred sixty-fifth (365th) day thereafter.

“Initial Model Year” shall mean the model year applicable on the Port Authority’s date of acceptance of the Vendor’s bid.

“Subsequent Model Years” shall mean the three (3) consecutive annual periods immediately following the initial model year.

Initial model year: By written notice from the Director or a duly authorized representative to the Vendor given at any time during the initial model year, the Port Authority shall have the right, but not the obligation, to purchase from the Vendor additional unit(s) of initial model year vehicles originally purchased hereunder at the same unit prices, conforming to the same specifications, and upon the same terms and conditions as contained herein with respect to such vehicles.

Subsequent model years: For up to three subsequent model years, by written notice from the Director or a duly authorized representative to the Vendor, the Port Authority shall have the further right, but not the obligation, to purchase from the Vendor additional unit(s) of vehicle(s) originally purchased hereunder but of subsequent model years at the same unit prices but as adjusted as set forth below, conforming to the same specifications, and upon the same terms and conditions as amended by the following:

- A. If price changes are in effect for such vehicles during the subsequent model years, the Vendor may, within ten (10) days following the receipt of the Port Authority’s notice of exercise of this option, submit a request to the Port Authority for the application of price changes to the additional unit(s) proposed to be purchased.
- B. All such requests must include an appropriate explanation and justification for such price changes, including the published price lists for the vehicles and their components in effect at the time of the Vendors original bid hereunder, the equivalent published price lists for the vehicles and their components in effect at the time of the Port Authority’s notice, and any additional evidence which the Port Authority deems necessary for its evaluation of the Vendor’s request for the price changes.
- C. No price changes shall exceed the change in the price calculated utilizing the Consumer Price Index – All Urban Customers (CPI-U); Series ID: CUURA101SA0L2; Not Seasonally Adjusted; Area: New York – Northern New Jersey – Long Island, NY-NJ-CT-PA; Item: All Items Less Shelter; Base Period: 1982-84=100, published by the Bureau Of Labor Statistics of the United States Department Of Labor (herein called the “Price Index”).
- D. The Vendor shall include all backup materials and calculations with the request for increased pricing.

E. Specifically, the requested price adjustment may not exceed the percentage change in the consumer price index by using as the numerator the index three months prior to the most recent anniversary of the contract, and as the denominator the said index three months prior to the commencement of the contract. This adjustment limitation shall apply for each subsequent model year. The new prices shall remain constant for all subsequent purchases made in the same model year. In the event the said index is no longer published or its basis is changed, the parties shall in good faith choose a substitute index or agree on another basis for escalation.

Notwithstanding the above terms and conditions, within sixty (60) days following its receipt of the foregoing submission of the price adjustment request, the Port Authority shall have the right, in its sole discretion, to reject the price changes and withdraw its offer to purchase the additional unit(s). The rejection of the Vendor's request for price changes shall be in writing.

Nothing in this numbered clause shall be construed to obligate the Port Authority to purchase any additional unit(s) of vehicle(s), or any minimum number of additional unit(s) of vehicle(s), from the Vendor, or to preclude the Port Authority from purchasing any additional vehicles from any other source whatsoever using such procurement methods as it may in its sole discretion deem appropriate to best serve the public interest.

The Vendor represents that the last day on which orders may be placed for the model year currently in effect is:

#### **47. CONFIDENTIAL INFORMATION/NON-PUBLICATION**

- A. As used herein, confidential information shall mean all information disclosed to the Vendor or the personnel provided by the Vendor hereunder which relates to the Authority's and/or PATH's past, present, and future research, development and business activities including, but not limited to, software and documentation licensed to the Authority or proprietary to the Authority and/or PATH and all associated software, source code procedures and documentation. Confidential information shall also mean any other tangible or intangible information or materials including but not limited to computer identification numbers, access codes, passwords, and reports obtained and/or used during the performance of the Vendor's Services under this Contract.
- B. Confidential information shall also mean and include collectively, as per The Port Authority of New York & New Jersey Information Security Handbook (October 15, 2008, corrected as of February, 9 2009), Confidential Proprietary Information, Confidential Privileged Information and information that is labeled, marked or otherwise identified by or on behalf of the Authority so as to reasonably connote that such information is confidential, privileged, sensitive or proprietary in nature. Confidential Information shall also include all work product that contains or is derived from any of the foregoing, whether in whole or in part, regardless of whether prepared by the Authority or a third-party or when the Authority receives such information from others and agrees to treat such information as Confidential.
- C. The Vendor shall hold all such confidential information in trust and confidence for the Authority, and agrees that the Vendor and the personnel provided by the Vendor hereunder shall not, during or after the termination or expiration of this Contract, disclose to any person, firm or corporation, nor use for its own business or benefit, any information obtained by it under or in connection with the supplying of services contemplated by this Contract. The Vendor and the personnel provided by the Vendor hereunder shall not violate in any manner any patent, copyright, trade secret or other proprietary right of the Authority or third persons in connection with their services hereunder, either before or after termination or expiration of this Contract. The Vendor and the personnel provided by the Vendor hereunder shall not willfully or otherwise perform any dishonest or fraudulent acts, breach any security procedures, or damage or destroy any hardware, software or documentation, proprietary or otherwise, in connection with their services hereunder. The Vendor shall promptly and fully inform the Director in writing of any patent, copyright, trade secret or other intellectual property rights or disputes, whether existing or potential, of which the Vendor has knowledge, relating to any idea, design, method, material, equipment or other matter related to this Contract or coming to the Vendor's attention in connection with this Contract."
- D. The Vendor shall not issue nor permit to be issued any press release, advertisement, or literature of any kind, which refers to the Port Authority or to the fact that goods have been, are being or will be provided to it and/or that services have been, are being or will be performed for it in connection with this Agreement, unless the Vendor first obtains the written approval of the Port Authority. Such approval may be withheld if for any reason the Port Authority believes that the publication of such information would be harmful to the public interest or is in any way undesirable.

#### **48. ENTIRE AGREEMENT**

The agreement between the Port Authority and the Vendor consists of this document, the Request For Quotation ("RFQ"), the Specifications, any Appendices, and all other documents required to be submitted by the Vendor with its proposal, and the Authority's acceptance of the Vendor's proposal and constitutes the complete and exclusive statement of the terms of the agreement between the parties, and the agreement may not be explained or supplemented by course of dealing, usage of trade, or course of performance; and this document shall supersede all other communications, written or oral.

#### **49. CHANGES IN AGREEMENT**

Except as specifically provided in the clause hereof entitled "Rights of the Port Authority," no change in or termination or modification of this agreement shall be effective unless in writing and signed by the party to be charged therewith.

#### **50. APPLICABLE LAW**

This agreement shall be construed in accordance with the laws of the state of New York. The Vendor hereby consents to the exercise by the courts of the states of New York and New Jersey of jurisdiction in personam over it with respect to any matter arising out of or in connection with this agreement and waives any objection to such jurisdiction which it might otherwise have; and the Vendor agrees that mailing of process addressed to it, at the address of the Vendor indicated herein by certified mail, shall have the same effect as personal service within the state of New York upon a domestic corporation of the state of New York.

#### **51. NO PERSONAL LIABILITY**

Neither the Commissioners of the Port Authority, nor Directors of the Port Authority Trans-Hudson Corporation ("PATH,") nor any of them, nor any officer, agent or employee thereof, shall be charged personally by the Vendor with any liability, or held personally liable to the Vendor under any term or provision of this Contract, or because of its execution or attempted execution, or because of any breach, or attempted or alleged breach, thereof.

**ALL BIDDERS NOTE**

IN THE EVENT OF ANY CALCULATION ERROR (S), UNIT PRICE PREVAILS.

IN THE EVENT A UNIT PRICE IS OMITTED, THE PORT AUTHORITY SHALL HAVE THE RIGHT TO RE-CALCULATE THE TOTAL PRICE DIVIDED BY THE # OF UNITS THUS ARRIVING AT A UNIT PRICE.

**DOMESTIC CONTENT AND ASSEMBLY CERTIFICATION**

THE BIDDER CERTIFIES THAT THE UNIT(S) AND ALL EQUIPMENT SHALL BE CONSTRUCTED OF PARTS AND COMPONENTS SUCH THAT AT LEAST SIXTY (60%) PERCENT (VALUE) OF A VEHICLE'S COMPONENTS AND SUBCOMPONENTS ARE TO BE PRODUCED IN THE UNITED STATES OR CANADA; AND WITH FINAL ASSEMBLY TAKING PLACE IN THE UNITED STATES. THE VENDOR SHALL NOT SUBSTITUTE AN EQUIVALENT MAKE OR MODEL VEHICLE THAT DOES NOT MEET SUCH CRITERIA, WITHOUT PRIOR EXPRESS WRITTEN APPROVAL BY THE ENGINEER.

BIDDER CERTIFIES UNIT(S) MEET DOMESTIC CONTENT AND ASSEMBLY REQUIREMENTS.

BIDDER'S UNIT(S) DO NOT MEET DOMESTIC CONTENT AND ASSEMBLY REQUIREMENTS, AND BIDDER SHALL SEEK EXPRESS WRITTEN APPROVAL BY THE ENGINEER IN ACCORDANCE WITH THE CONTRACT DOCUMENTS.
