INSTRUCTIONS:

A LOW BIDDER THAT SUBMITS A DBE PARTICIPATION PLAN THAT INCLUDES AMOUNT(S) FOR TRUCKING MUST COMPLETE THIS FORM TO SHOW HOW THE COMMITMENT AMOUNT WAS ESTIMATED. THIS FORM IS TO BE ATTACHED TO THE REQUIRED "DBE PARTICIPATION PLAN AND AFFIRMATION STATEMENT (APPENDIX A2)" FOR FEDERALLY FUNDED CONTRACTS.

PRIME CONTRACTORS UTILIZING DBE FIRMS WITH A "TRUCKING" CLASSIFICATION TO MEET DBE CONTRACT GOALS MUST BE AWARE THAT CERTAIN CONDITIONS MUST BE MET BY THE DBE TRUCKING FIRM IN ORDER TO BE CONSIDERED COMMERCIALY USEFUL. THESE CONDITIONS DIRECTLY AFFECT HOW MUCH PARTICIPATION CREDIT WILL BE COUNTED TOWARD THE GOAL. FOR DBE CREDIT, THESE CONDITIONS ARE OUTLINED UNDER CFR PART 26.55(d) (1) THROUGH (7).

Use the following factors in determining whether a DBE trucking company is performing a commercially useful function:

- The DBE must be responsible for the management and supervision of the entire trucking operation for which it is responsible on a particular contract, and there cannot be a contrived arrangement for the purpose of meeting DBE goals.
- The DBE must itself own and operate at least one fully licensed, insured and operational truck used on the contract.
- The DBE receives credit for the total value of the transportation services it provides on the contract using trucks it owns, insures, and operates, using drivers it employs.
- The DBE may lease trucks from another DBE firm, including an owner-operator who is certified as a DBE. The DBE who leases trucks from another DBE receives credit for the total value of the transportation services the lessee DBE provides on the contract.
- The DBE may also lease trucks from non-DBE firms and owner-operators. The DBE can count the value of these trucking services up to the value of services performed by the DBE trucks used on the contract. DBE participation can be counted for the value of services of non-DBE trucks that exceed the value of services performed by DBE trucks only in the amount of the fee or commission a DBE receives as a result of the lease arrangement.
- A lease must indicate that the DBE has exclusive use of and control over the truck for the period of the subcontract. This does not preclude the leased truck from working for others during the term of the lease with the consent of the DBE, so long as the lease gives the DBE absolute priority for use of the leased truck

GUIDE FOR COUNTING DBE SUPPLIERS

- The official question and answer (Q & A) issued by the United States Department of Transportation on December 9, 2011 as institutional guidance based on 49 C.F.R. § 26.55 relative to regular dealers poses two questions that must both be answered ‘yes’ in order for the DBE firm to receive regular dealer credit equivalent to 60 percent of the value for materials supplied on federally-assisted transportation projects.
- Following is the official Q & A in italics:
 - First, does the firm “regularly” engage in the purchase and sale or lease, to the general public in the usual course of its business, of products of the general character involved in the contract and for which DBE credit is sought?*
 - *Answering this question involves attention to the activities of the business over time, both within and outside the context of the DBE program.*
 - *The distinction to be drawn is between the regular sale or lease of the products in question and merely occasional or ad hoc involvement with them.*
 - *In answering this question, [the Port Authority of NY and NJ] will not insist that every single item the DBE firm supplies be physically present in the firm’s store, warehouse, etc. before it is sold to a contractor. However, the establishment in which the firm keeps items it sells to the general public should be more than a token location.*
 - *For example, a mere showroom, the existence of a hard-copy or on-line catalog, or the presence of small amounts of material that make questionable the ability of the firm to effectively supply quantities typically needed on a contract, are generally not sufficient to demonstrate that a firm regularly deals in the items.*
 - Second, is the role the firm plays on the specific contract in question consistent with the regular sale or lease of the products in question, as distinct from a role better understood as that of a broker, packager, manufacturer’s representative, or other person who arranges or expedites a transaction?*
 - *For example, a firm that regularly stocks and sells Product X may, on a particular contract, simply communicate a prime contractor’s order for Product Y to the manufacturer, acting in a transaction expeditor capacity.*
 - *This means that a firm that acts as a regular dealer on one contract does not necessarily act as a regular dealer on other contracts. For example, a firm that acts as a regular dealer on Contract #1 may act simply as a “transaction expeditor” or “broker” on Contract #2. It would receive DBE credit for 60 percent of the value of the goods supplied on Contract #1 while only receiving DBE credit for its fee or commission on Contract #2.*
 - *In some circumstances, items are “drop-shipped” directly from a manufacturer’s facility to a job site, never being in the physical possession of or transported by a supplier. In many such cases, the supplier’s role may involve nothing more than contacting the manufacturer and placing a job-specific order for an item that the manufacturer then causes to be transported to the job site.*
 - *In such a situation, the supplier’s role may often be better described as that of a “broker” or “transaction expeditor” (see 49 C.F.R. § 26.55(e)(2)(ii)(C)) than as a “regular dealer.” In such a case, DBE credit is limited to the fee or commission the firm receives for its services. If the firm does not provide any commercially useful function (i.e., it is simply inserted as an extra participant in a transaction), then no DBE credit can be counted.*
- The Port Authority of NY and NJ propose that primes submit the two questions to DBEs in writing. If the DBE firm answers ‘yes’ to both questions, then the written documentation would be taken into account in the Port Authority of NY and NJ’s good faith effort determination in accordance with Section 26.53 of the federal DBE regulation set forth in Title 49 Code of Federal Regulations Part 26.
- If it were later determined that the DBE misrepresented itself or erroneously concluded that it was acting as a regular dealer, the Port Authority of NY and NJ would strongly consider this documentation in evaluating the actions of the prime and in determining whether the prime exercised reasonable due diligence by obtaining a written regular dealer confirmation from the DBE even though it later turned out to be false.
- Participation would still have to be revised, but the Port Authority of NY and NJ will fully consider the written documentation in its good faith effort review.
- The Port Authority of NY and NJ reserves the right to address any misrepresentation by the DBE firm or the prime consistent with the “Bidders Certification Statement” and other requirements and procedures for determinations of whether a contractor has acted responsibly.
