**3. ACCEPTABLE PRODUCTS AND SAMPLES**

This bid may or may not call for specific brands that have been deemed acceptable for the purpose intended. If this bid calls for specific brands that have been deemed acceptable for the purpose intended, the Bidder may quote alternate products other than those listed hereunder. In that case, the Bidder must indicate the manufacturer name and model/part number of the alternate product next to each applicable line item. - b. **"Post-consumer Material"** shall be defined as any material or finished product that has served its intended use and has been discarded for disposal or recovery having completed its life as a consumer item. "Post-consumer material" is included in the broader category of "Recovered Material".
- c. **"Pre-consumer Material"** shall be defined as any material or by-product generated after the manufacture of a product but before the product reaches the consumer, such as damaged or obsolete products. Pre-consumer Material does not include mill and

manufacturing trim, scrap, or broken material that is generated at a manufacturing site and commonly reused on-site in the same or another manufacturing process.

- d. **“Recycled Product”** shall be defined as a product that contains the highest amount of post-consumer material practicable, or when post-consumer material is impracticable for a specific type of product, contains substantial amounts of Pre-consumer Material.
- e. **“Recyclable Product”** shall be defined as the ability of a product and its packaging to be reused, reconditioned for use, or recycled through existing recycling collection programs.
- f. **“Waste Reducing Product”** shall be defined as any product that will result in less waste generated due to its use rather than another product designed to serve the same function with a greater waste generation rate. This shall include, but not be limited to, those products that can be reused, refilled or have a longer life expectancy and contain a lesser amount of toxic constituents.
