*****This notice is for prior information only*****

The Port Authority of New York & New Jersey (the “Port Authority”) intends to issue a Request for Qualifications (RFQ) in April 2017 to procure operations, maintenance and concession management services for the Terminal A Redevelopment Project at Newark Liberty International Airport (the “Project”). When issued, the RFQ will be publicly advertised and posted on the Port Authority’s website. The Port Authority’s issuance of the RFQ will be the first step in a two-step procurement process.

Through the RFQ, the Port Authority will seek Statements of Qualifications (SOQs) from qualified firms interested in providing advisory services in connection with our procurement and selection of the Design-Builder for the Project, and operations, maintenance, and concession management services for the new Terminal.
