THE PORT AUTHORITY OF NEW YORK AND NEW JERSEY

REQUEST FOR PREQUALIFICATION INFORMATION

GENERAL CLEANING AND JANITORIAL SERVICES – SMALL BUSINESS ENTERPRISE COLLECTIVE 34107
The Port Authority of New York and New Jersey (hereinafter referred to as the "Port Authority" or the "Authority") wishes to prequalify Port Authority Pre-Certified Small Business Enterprises in the Janitorial Maintenance ("JMSBE") category as specified herein, to submit bids and/or proposals for contracts to provide general cleaning and janitorial services at Port Authority facilities, which are scheduled for bid or proposal solicitation on a JMSBE set-aside basis. It is presently intended that bids and/or proposals will only be accepted from prequalified vendors.

Qualification hereunder will be generally based upon the experience of the JMSBE and its employees, and will not be based upon financial capability to perform a particular contract. Financial capability will be a factor in determining the award of contracts, as part of the specific bid or Request for Proposal processes.

It is currently anticipated that the duration of prequalification will be open ended from the effective date of prequalification, unless otherwise determined by the Port Authority. Respondents will be prequalified to submit bids and/or proposals for contracts of an estimated annual dollar value in one of the following categories listed below. Note: Contract references submitted by the Respondent in accordance with this Request For Prequalification Information document, in addition to other information submitted by the Respondent, will be used to determine the dollar value category in which the Respondent will be prequalified.

**Contract Dollar Value Categories**

- Up to - $500,000 - Annually
- Up to - $2,000,000 - Annually
- Over $2,000,000 - Annually

To be eligible to be prequalified, respondents must currently be pre-certified by the Port Authority as a Small Business Enterprise in the Janitorial Maintenance ("JMSBE") category, and such JMSBE pre-certification must be current. Respondents who are not currently pre-certified as a JMSBE must apply for pre-certification by following the instructions in the document found on the Port Authority’s website referenced below.

The information required for SBE certification should be sent to the address listed in the website above and labeled “Attention: Jacqueline Grossgold.”

Note: The prequalification process will not be initiated until the Respondent has been pre-certified as a SBE as specified above.

The scope of work required by Port Authority contracts for general cleaning and janitorial services will include, but will not necessarily be limited to, furnishing uniformed, trained and qualified staff, as well as supervision, materials, supplies, and equipment necessary to perform general cleaning and janitorial services. The decision to prequalify a Respondent will be based on the Respondent’s experience and management capabilities and as further detailed below.
The determination on prequalification will be made by the Authority's General Manager, Procurement Operations, Procurement Department (hereinafter referred to as the "Manager") or the authorized designated representative following receipt of the required information. The Manager or designee will indicate, in writing, the categories, if any, in which the Respondent has been prequalified to submit bids and/or proposals for general cleaning and janitorial contracts. All determinations as to prequalification are subject to further review. The Authority reserves the right at any time to modify, waive, or vary the terms and conditions of this Request For Prequalification Information.

No decision to prequalify shall limit or impair the reservation by the Port Authority of the unqualified right, in its sole and absolute discretion, to reject all bids or proposals, or to accept that bid or proposal, if any, which in its judgment will, under the circumstances, best serve the public interest. In addition, the Port Authority reserves the right in its sole and absolute discretion, to elect not to solicit bids or proposals from Respondents prequalified pursuant to this Request For Prequalification Information, to prequalify additional Respondents, and /or to enter into a contract for the performance of such general cleaning and janitorial services in such a manner as it may deem in the public interest. Moreover, continued failure of Respondents prequalified hereunder to respond to Port Authority solicitations of bids and /or proposals, without substantive reason, may result in their not being solicited for future bids/proposals.

All responses to this Request For Prequalification Information will be reviewed by the Port Authority to determine if they contain all required submissions and if the Respondent meets the preconditions required for submission of a response. For responses meeting such requirements, the following criteria, set forth in the order of importance, will be utilized in the evaluation of the responses:

1. **Firm Qualification and Experience:** The degree and extent to which the Respondent, or persons or entities owning and controlling the Respondent, have had experience in having satisfactorily operated and managed commercial/industrial cleaning contracts, specifically, compliance with contractual requirements including, but not limited to, employee wage, health and supplemental benefits requirements. At least one (1) of the contracts submitted in support of this criterion should have a value of at least seventy five thousand dollars ($75,000) annually, unless otherwise approved, in writing, by the Authority in the best interests of the Port Authority.

2. **Staff Qualification and Experience:** The degree and extent to which the Respondent's managerial and supervisory personnel have had experience in having satisfactorily managed commercial/industrial cleaning contracts.

3. **Management and Technical Approach:** The degree and extent to which the Respondent has assigned qualified personnel and managed and implemented: proper scheduling of work, employee training and safety programs, recruitment practices, background checks, policy on providing adequate wages, benefits and incentives to its employees to ensure a quality work force, ability to retain a stable work force, history of maintaining workers' compensation and liability insurance, and
inspection and reporting procedures, to ensure job quality control for commercial/industrial cleaning services.

Such determination shall not preclude the Manager from subsequently concluding, based upon additional information or further analysis of the information upon which prequalification was based, that a Respondent is not qualified to perform work in any category set forth above. Further, the Port Authority reserves the right at any time following its prequalification determination to request that a prequalified Respondent update or supplement the data upon which the prequalification determination was based.
