REQUEST FOR QUALIFICATIONS FOR PERFORMANCE OF EXPERT PROFESSIONAL MATERIALS TESTING, INSPECTION AND CONDITION SERVICES AS REQUESTED ON A “CALL-IN” BASIS DURING 2018-2021

Firms interested in providing expert professional engineering materials testing, inspection and condition services for The Port Authority of New York and New Jersey, as the need arises during 2018 through 2021, are encouraged to complete the Engineering Department's Professional Service Firm Questionnaire (PSFQ) available on the Authority's website at <https://psfq.panynj.gov/pls/apexapexapps/f?p=146:3>. It should be noted that the PSFQ is now web-based and is to be completed online (PSFQs will no longer be accepted in hard copy, and may only be completed online).

The program provides for performance of various professional materials testing, inspection and condition services within each of the following areas:

- A. Bituminous Concrete & Portland Cement Concrete Inspection, Sampling & Testing Services
- B. Geotechnical & Environmental Field Services
- C. Smoothness Testing of Portland Cement Concrete & Bituminous Concrete

The completed PSFQ shall serve as your pre-qualification submission. Firms deemed most qualified based on the information provided therein may be issued a Request for Proposal(s) (RFP). RFPs for performance of services under the subject programs will be issued shortly. To ensure consideration of your revised questionnaire, updates must be completed no later than **July 10, 2017**.

This advertisement is intended to target all firms seeking consideration for performance of the subject services. Such firms include those that: 1) seek to be new service providers, 2) are currently in the PSFQ database but want to add to, or must now modify, information previously provided, or 3) have a PSFQ on file that is approaching the end of its five-year validity period, and are therefore required to update their PSFQ at this time.
