The work generally consists of the deconstruction design and demolition of the hangars including the removal of asbestos containing materials, lead and other hazardous materials, grading of the site and installation of aeronautical fences. Hangar 3, 4 & 5 is a three bay arched steel frame structure consisting of hangars and two storey offices. Total footprint is approximately 255,000 square feet and the total floor area is 300,000 square feet.

Qualification information is to be submitted by 4:00 pm on March 3, 2014, and it is anticipated that bid documents for JFK-924.250 will be available to pre-qualified bidders on or about April 2014.

In order to pre-qualify for the said contracts, all participating firms must also execute and submit Attachment A – Agreement on Terms of Discussion and Contractor’s Qualification Statement with their RTQ submittal package. Participating firms should also execute and submit the Business Qualification Questionnaire as per instructions on the website.

Firms previously qualified in 2011 must again submit Qualification information in order to be considered under this call for Request to Qualify information.
