

New Toll Collection System with Cashless (All-Electronic) Capability

Project Authorization

Board Meeting
February 25, 2010

THE PORT AUTHORITY
OF NEW YORK & NEW JERSEY

Port Authority Toll Facilities

Facilities

- 4 bridges: George Washington, Goethals, Bayonne, and Outerbridge Crossing
- 2 tunnels: Lincoln and Holland
- 8 toll plazas
- 72 toll lanes

Annual Traffic Volumes: 243 million vehicles

Annual Toll Revenue: \$967 million

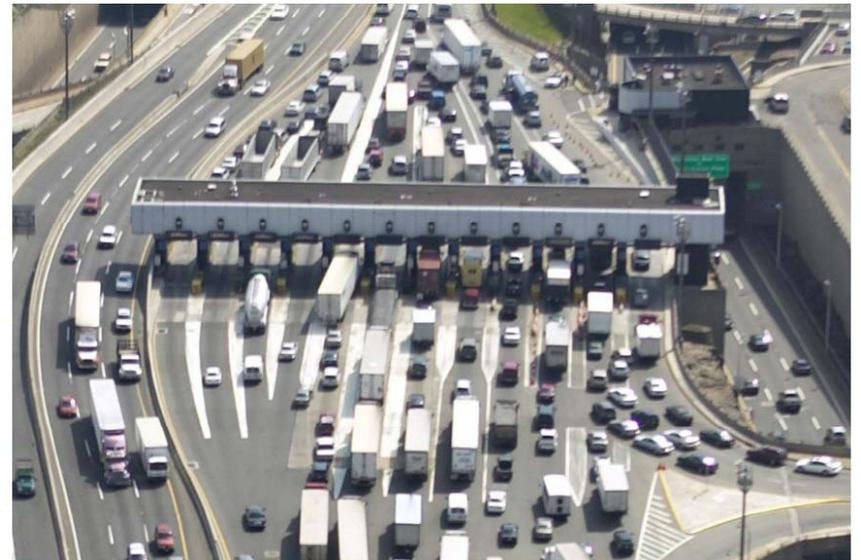

PA Toll Collection System, Now and Tomorrow

Collects Nearly \$1 Billion in Revenues Each Year

Many Elements Are Obsolete

New System Builds for the Future and Reduces Costs and Risks

- Deployed in Current Plazas
- Capability to Collect E-ZPass[®] and Cash
- Capability to “Turn on” Cashless Tolling in the Future

Scope of the Effort

What Is Being Replaced

- In-lane equipment including cameras and computers
- Software and the main computer
- Customer information signage and signals

What Provides for the Future

- All of the above give us the capability to collect cash or to go cashless
