

Procedure for Reviewing Existing Registrations

1. Click on the [Existing Registrations](#) tab.

To print this list of existing registrations click on the  button.

2. Review the vehicle registration information, the **Sticker # or Status** column displays the registration sticker number issued by the Port Authority. If a sticker has not yet been issued for a vehicle, the status will read **pending**.

Any vehicle information for **pending** registrations that is not correct can be updated by clicking on the [view](#) link – detailed information for the vehicle is displayed and changes can be made.

Once a registration sticker has been assigned to the vehicle this information can only be updated by a Port Authority representative, please call the Customer Support line for assistance in updating any incorrect information.

3. Click on the [view](#) link to display vehicle registration details.
4. Click on the [<<Return to list of registrations](#) link to return to the list of current registrations.
