Notes1: The section entitled Air Transport Association Carriers is included to give a comparison between Port Authority Airport traffic growth and aggregate growth as measured by the majority of the U.S. carrier industry.

Note2: The page 2 Access Mode: residents report excludes passengers arriving by hotel courtesy vehicles, helicopters, and the miscellaneous "other" category. The airline OAG summary uses schedules effective for the week in the middle of the month being summarized. "Flights (daily) refers to the daily-each-way average flights which can be thought of as 1 directional departing or arriving flights.

Aviation Department

Regional traffic fell 4.9%, the smallest monthly decline this year. Domestic passenger traffic fell 7.0% while international remained unchanged. Easter fell in April this year (March last year) making this April's results look about 3% better as a result. Traffic growth in March and April were distorted by the timing of Easter. A May traffic decline of 5.5% or less would truly reflect improved conditions.
