Aviation Department - Traffic Statistics

JoJo Quayson
Jean Debrosse
Tushar Japi

Notes1: The section entitled Air Transport Association Carriers is included to give a comparison between Port Authority Airport traffic growth and aggregate growth as measured by the majority of the U.S. carrier industry.

Note2: The page 2 Access Mode: residents report excludes passengers arriving by hotel courtesy vehicles, helicopters, and the miscellaneous "other" category. The airline OAG summary uses schedules effective for the week in the middle of the month being summarized."Flights (daily) refers to the daily-each-way average flights which can be thought of as 1 directional departing or arriving flights.

Aviation Department

Our airports served 10.3 million passengers, up 5.5% from the same month in 2014 and the best April ever for the region, with passenger totals surpassing the 10 million mark for the first time in our history-volume usually reserved for early summer months. Domestic travel contributed the most, rising 7.7%. International traffic was up 1.5%. The region's traffic grew because of relatively high load factors and 5% seat capacity expansion by carriers serving our region, even though the capacity growth disproportionately originated from two of our facilities: JFK and EWR. Cargo continued to grow, sustaining momentum by posting a 4% increase as domestic tonnage expanded 3.7% and international grew 4.1%.
