Daniel Gafurson

Notes1: The section entitled Air Transport Association Carriers is included to give a comparison between Port Authority Airport traffic growth and aggregate growth as measured by the majority of the U.S. carrier industry.

Note2: The page 2 Access Mode: residents report excludes passengers arriving by hotel courtesy vehicles, helicopters, and the miscellaneous "other" category. The airline OAG summary uses schedules effective for the week in the middle of the month being summarized."Flights (daily) refers to the daily-each-way average flights which can be thought of as 1 directional departing or arriving flights.

Aviation Department

Two important records were set at the aggregate level in 2014. The region's overall traffic grew 3.3% and set an all-time record as it handled 117.3 million passengers, eclipsing the 114-million mark set in 2013. This was our second consecutive record year and the first time we set eight different passenger-count records overall. Additionally, the region handled 41.9 million international passengers, breaking the all-time international passenger traffic record set 2013. This puts international growth at 5.9%. Domestic passengers were up 1.9%. Of even greater note, cargo volumes also reflected the excellent performance, growing 1.2% - the first annual growth for our system since 2010.
