Aviation Department - Traffic Statistics

Doug Wilson  
John Cuneo  
Ingrid Hamilton-Williams

Notes1: The section entitled Air Transport Association Carriers is included to give a comparison between Port Authority Airport traffic growth and aggregate growth as measured by the majority of the U.S. carrier industry.

Note2: The page 2 Access Mode: residents report excludes passengers arriving by hotel courtesy vehicles, helicopters, and the miscellaneous "other" category. The airline OAG summary uses schedules effective for the week in the middle of the month being summarized. "Flights (daily)" refers to the daily-each-way average flights which can be thought of as 1 directional departing or arriving flights.

## Aviation Department

Regional passenger traffic grew 4.4% on a 5.0% rise in scheduled seat capacity. International growth led domestic in a 13.3% to 0.9% ratio. February set another 12-month ending traffic growth record with 110.4 million passengers. The American Transport Association (ATA) reported a 3.0% passenger gain, indicating flat traffic after accounting for the extra leap-year day. Regional freight declined (0.9%) compared to a 6.1% ATA gain when mail and freight are combined.
