Notes1: The section entitled Air Transport Association Carriers is included to give a comparison between Port Authority Airport traffic growth and aggregate growth as measured by the majority of the U.S. carrier industry.

Note2: The page 2 Access Mode: residents report excludes passengers arriving by hotel courtesy vehicles, helicopters, and the miscellaneous "other" category. The airline OAG summary uses schedules effective for the week in the middle of the month being summarized."Flights (daily) refers to the daily-each-way average flights which can be thought of as 1 directional departing or arriving flights.

July regional passenger traffic fell (-10.6%) from July 2001. Led by Continental and American, majors announced further service cuts coming soon, re-scheduling operations to reduce inefficient hub peaking and other cost saving measures to remain competitive
