Notes1: The section entitled Air Transport Association Carriers is included to give a comparison between Port Authority Airport traffic growth and aggregate growth as measured by the majority of the U.S. carrier industry.

Note2: The page 2 Access Mode: residents report excludes passengers arriving by hotel courtesy vehicles, helicopters, and the miscellaneous "other" category. The airline OAG summary uses schedules effective for the week in the middle of the month being summarized."Flights (daily) refers to the daily-each-way average flights which can be thought of as 1 directional departing or arriving flights.

Gloria Martinez, who has worked compiling, analyzing and brow beating airlines for these statistics for 34 years is retiring on January 3. Best wishes for the new life in Florida. On a separate note, 12 month ending October passenger traffic exceeded the previous annaul record for traffic of 92.4 million passengers set in 2000 by 100 thousand passengers.
