Tushar Japi

Notes1: The section entitled Air Transport Association Carriers is included to give a comparison between Port Authority Airport traffic growth and aggregate growth as measured by the majority of the U.S. carrier industry.

Note2: The page 2 Access Mode: residents report excludes passengers arriving by hotel courtesy vehicles, helicopters, and the miscellaneous "other" category. The airline OAG summary uses schedules effective for the week in the middle of the month being summarized."Flights (daily) refers to the daily-each-way average flights which can be thought of as 1 directional departing or arriving flights.

Aviation Department

For the fourth year in row, the region's overall traffic set an all-time record as the airports handled 130.5 million passengers, surpassing the 124.3 million passenger mark set in 2015. The 130.5 million passengers translated to a 5 percent gain over 2015 while setting multiple domestic and international records. Internationally, the airport system handled 45.9 million international passengers, breaking the all-time international passenger traffic record of 43.6 million set in 2015. The 84.7 million domestic passengers also shattered the previous 80.6 million domestic passenger record set in 2015. The region's 5 percent 2016 growth, an increase of 6.2 million passengers over the 2015 level, was higher than the nation's 3.8 percent growth, and 1 percentage point higher than the 4 percent rate we had forecast for 2016. The region's cargo grew 1.4 percent in 2016. This represents the third consecutive year of growth, marking the first time it has achieved this feat since 2005.
