ADDENDUM # 2

To prospective Bidder(s) on Bid #44498 for Supply and Deliver at a Aqueous Urea at a Concentration of 32.5% (by weight) with <1% Free Ammonia, Serving as a Reducing Agent for a Selective Catalytic Reduction System (SCR)

Now due back on 12/16/2015, no later than 11:00AM

Originally due back on 12/09/2015, no later than 11:00AM

I. CHANGES/MODIFICATIONS

The following changes/modifications are hereby made to the solicitation documents:

THE BID IS HEREBY EXTENDED TO TUESDAY, DECEMBER 16, 2015 NO LATER THAN 11:00 AM.

II. BIDDER'S QUESTIONS AND ANSWERS

The following information is available in response to questions submitted by prospective Bidders. The responses should not be deemed to answer all questions, which have been submitted by Bidders to the Port Authority. It addresses only those questions, which the Port Authority has deemed to require additional information and/or clarification. The fact that information has not been supplied with respect to any questions asked by a Bidders does not mean or imply, nor should it be deemed to mean or imply, any meaning, construction, or implication with respect to the terms.

The Port Authority makes no representations, warranties or guarantees that the information contained herein is accurate, complete or timely or that such information accurately represents the conditions that would be encountered during the performance of the Contract. The furnishing of such information by the Port Authority shall not create or be deemed to create any obligation or liability upon it for any reason whatsoever and each Bidder, by submitting its Bid, expressly agrees that it has not relied upon the foregoing information, and that it shall not hold the Port Authority liable or responsible therefore in any manner whatsoever. Accordingly, nothing contained herein and no

representation, statement or promise, of the Port Authority, its Commissioners, officers, agents, representatives, or employees, oral or in writing, shall impair or limit the effect of the warranties of the Bidder required by this Bid or Contract and the Bidder agrees that it shall not hold the Port Authority liable or responsible therefore in any manner whatsoever.

The Questions and Answers numbering sequence will be continued sequentially in any forthcoming Addenda that may be issued.

Question #1	I have a question regarding the last paragraph on page 6 of 10 in the Aqueous Urea Requirements Contract. It states that, "Obtaining the required aqueous urea concentration shall be carried out by the contractor at the contractor's location combining warm demineralized water at a temperature of approx.. 50 – 60 degrees (approx.. 120 degrees F) and raw urea using an agitator to obtain the 32.5% requirement." Our supplier provides us with a 50% solution of urea and we then produce a 32.5% solution. Our step does not require the 120 degree temperature or the use of an agitator. So we utilize a 2 step process instead of the 1 step that is described. We operate under ISO spec 2241-1-2-3-4. Is our process acceptable?
Answer # 1	Yes, it is acceptable.
