4. SAMPLES

This bid may or may not call for specific brands that have been deemed acceptable for the purpose intended. If this bid calls for specific brands that have been deemed acceptable for the purpose intended, the Bidder may quote alternate products other than those listed hereunder. A Bidder quoting products may be required, at his own expense, to submit a sample of the proposed product and/or a copy of the

specifications for the sample being submitted. If the Bidder fails to submit the required sample, the Bidder may be deemed non-responsive. If this bid does not call for the specific brands that have been deemed acceptable for the purpose intended, the Bidder may be required, at its own expense, to submit a sample of a proposed product.

Samples of all the requested products shall be submitted to the Port Authority for evaluation within seven (7) business days of request. Failure by the Bidder to deliver samples within the required timeframe may result in the rejection of the Bid. The package containing sample products should clearly indicate the following: (1) the Bidder's name and address, (2) the Bid number, and (3) the Bid due date. Additionally, each item must be tagged with the Port Authority's Material Stock Number and the Bidder's name and address. **Sample products are to be sent directly to: the Port Authority of New York and New Jersey, Central Warehouse, 777 Jersey Ave, Jersey City, New Jersey 07302.** All sample products submitted by the Bidder will be evaluated by the port Authority, and the Port Authority will make the final determination as to whether or not the sample product is acceptable. The Bidder shall bear all costs of the evaluation, if any. Should a proposed alternate product be deemed not acceptable, the Bidder shall be obligated to provide one of the listed acceptable brands, including the manufacturer's name and model/part numbers at the original quoted price to maintain eligibility for contract award.

All samples must be picked up by the Bidder within thirty (30) days of notification, after which all samples will become the property of the Port Authority

5. ENERGY STAR

Where applicable, the Bidder shall make best efforts to provide products that earn the ENERGY STAR and meet the ENERGY STAR specifications for energy efficiency. The Bidder is encouraged to visit www.energystar.gov for complete product specifications and updated lists of qualifying products.

6. CERTIFICATION OF RECYCLED MATERIALS

Bidders are requested to submit, with their bid, Attachment I-A "Certified Environmentally Preferable Products / Practices Form", attesting that the products or items offered by the Bidder contain the minimum percentage of post-consumer recovered material in accordance with the most recent guidelines issued by the United States Environmental Protection Agency (EPA), or, for commodities not so covered, the minimum percentage of post-consumer recovered materials established by other applicable regulatory agencies. The data submitted by the Bidder in Attachment I-A is being solicited for informational purposes only.

Recycling Definitions:

For purposes of this solicitation, the following definitions shall apply:

- a. **"Recovered Material"** shall be defined as any waste material or by-product that has been recovered or diverted from solid waste, excluding those materials and by-products generated from, and commonly reused within, an original manufacturing process.
- b. **"Post-consumer Material"** shall be defined as any material or finished product that has served its intended use and has been discarded for disposal or recovery having completed its life as a consumer item. "Post-consumer material" is included in the broader category of "Recovered Material".
- c. **"Pre-consumer Material"** shall be defined as any material or by-product generated after the manufacture of a product but before the product reaches the consumer, such as damaged or obsolete products. Pre-consumer Material does not include mill and manufacturing trim, scrap, or broken material that is generated at a manufacturing site and commonly reused on-site in the same or another manufacturing process.
- d. **"Recycled Product"** shall be defined as a product that contains the highest amount of post-consumer material practicable, or when post-consumer material is impracticable for a specific type of product, contains substantial amounts of Pre-consumer Material.
- e. **"Recyclable Product"** shall be defined as the ability of a product and its packaging to be reused, reconditioned for use, or recycled through existing recycling collection programs.
- f. **"Waste Reducing Product"** shall be defined as any product that will result in less waste generated due to its use rather than another product designed to serve the same function with a greater waste generation rate.
