

ENGINEERING CONSTRUCTION REFERENCE SHEET

CMD 5/11

INSTRUCTIONS:

| | |
|--|---|
| 1 | The Construction Reference Sheet must be completed in its entirety. |
| 2 | A Construction Reference Sheet must be submitted for each category/specialty code being requested. Feel free to make copies of this form as needed. |
| 3 | A minimum of four references must be supplied for evaluation for each category/specialty code. The maximum number of categories that can be approved is three. |
| 4 | The same references are permitted for different specialties so long as the agency/company supplying the reference can attest to that specific category of work. |
| 5 | References are required upon recertification. For existing categories, references can be for work completed within the past 5 years. If pursuing a new category, references should be for work completed within the past 3 years. |
| NOTE: References ranging \$100,000 or less that are approved will be designated for subcontracting participation only. | |
