# JOHN F. KENNEDY INTERNATIONAL AIRPORT

## OPERATED BY

The Port Authority of New York and New Jersey, under a lease with the City of New York since June 1, 1947. In 2004 the Port Authority and the City of New York concluded an agreement that ensures the agency's continued operation of JFK and LaGuardia airports through 2050.

## LOCATION

On Jamaica Bay in the southeastern section of Queens County, New York City – 15 miles by highway from midtown Manhattan.

## SIZE

JFK covers 4,930 acres, including 880 acres in the Central Terminal Area (CTA). The airport has more than 30 miles of roadway.

## HISTORY

Construction began in April 1942 under a New York City contract for the placing of hydraulic fill over the marshy tidelands on the site of Idlewild golf course. Initial plans called for a 1,000-acre airport, but it would eventually grow to five times that size. Commercial flights began July 1, 1948. The airport was rededicated on December 24, 1963 as John F. Kennedy International Airport in memory of the nation's thirty-fifth president.

Kennedy International is the United States' leading international gateway. Over 80 airlines operate out of JFK.

## INVESTMENT

About \$150 million was expended by the City of New York on original construction. The Port Authority has invested about \$5.5 billion in the airport.

## EMPLOYMENT AND ECONOMIC IMPACT

JFK contributes about \$28 billion in economic activity to the NY/NJ region, generating some 229,000 jobs and about \$9.8 billion in wages and salaries. About 35,000 people are employed at the airport.

## REDEVELOPMENT PROGRAM

The redevelopment program consists of several major projects undertaken by the Port Authority and its airline and airport partners. Completed projects include: Terminals 1, 4, the new American Airlines' Terminal 8, upgrades to Delta's Terminals 2 and 3, JetBlue's Terminal 6 and British Airways' Terminal 7; plus a quadrant roadway system, new parking garages, and a light rail network (AirTrain JFK), which opened in December 2003. A 1,940-space parking garage adjacent to American Airlines' new terminal opened in November 2006. In December 2005, construction began on a new JetBlue 26-gate terminal behind the landmark TWA Flight Center. A 1,500-space parking garage is being built adjacent to the new terminal. These facilities will open in 2008.

## CENTRAL TERMINAL AREA (CTA)

JFK has seven operating airline terminals, surrounded by a dual ring of peripheral taxiways. The original 655 acres in the CTA was enlarged to 880 acres by relocating taxiways to provide needed space for expanding the passenger terminals. There are over 125 aircraft gates serving the terminals. The CTA also includes a central heating and air-conditioning plant.

## Terminals

- A consortium of airlines – Air France, Japan Airlines, Korean Air and Lufthansa – built the 11-gate international **Terminal 1**, opened in May 1998 on the site of the old Eastern Airlines Terminal.
- Delta Air Lines operates **Terminals 2 and 3**. Delta invested about \$150 million to renovate the terminals which consists of redesigned first and business class lounges, new ticket counters, new lighting and flooring and new baggage facilities.
- **Terminal 4** opened in May 2001. The 1.5 million square-foot common-use facility improves passenger service through the use of separate levels for departing and arriving passengers, consolidated ticketing and baggage operations, improved customer facilities, duty free and a wide array of retail shops and eateries.
- **Terminal 5**, formerly operated by TWA is currently closed. JetBlue operates out of **Terminal 6** and made \$12 million in interim improvements. A new passenger terminal is being built by the Port Authority and JetBlue. The joint \$875 million construction project also includes a parking garage (see above).
- **Terminal 7**, operated by British Airways, opened in 1970. A \$251 million redevelopment included expansion and reconfiguration of the terminal, new ticketing and check-in areas, new retail outlets, lounges and a new departure and arrival roadway system. United Airlines also operates out of this terminal.
- American Airlines created one new facility (the new **Terminal 8**), newest terminal at JFK, which serves both domestic and international passengers on three concourses and includes new shops and services, and expanded check-in areas. A 1,940 parking-space garage adjacent to the new terminal opened in November 2006.

## AirTrain JFK

This high-speed, light-rail service links the airport to New York City and beyond. Opened in December 2003, AirTrain

connects to the Long Island Rail Road (LIRR) and the New York City subway and bus lines. On airport, AirTrain provides free connections between terminals, rental car facilities, hotel shuttle areas and parking lots.

## Air Traffic Control Tower

The 321-foot Air Traffic Control Tower, which opened in 1994, includes state-of-the-art communications, radar and windshear alert systems.

## ROADWAY ACCESS

Work on a new quadrant, with elevated departure roadways and added frontage capacity was completed in 2001 at Terminals 4 and 7. New roadways at Terminals 8 and 9 now provide separate arrivals and departures levels.

## PARKING

The airport offers a total of 16,256 public parking spaces. The CTA contains 6,416 spaces included in three parking garages and open parking lots, an 8,846-space long-term lot and an overflow lot with 994 parking spaces. E-ZPass Plus is available in all parking lots and garages, except for the overflow lot.

## CARGO

JFK is one of the world's leading international air cargo centers. Two cargo facilities totaling 430,000 square feet of warehouse and office space opened in 2003 and offer the latest in cargo-facility design. The airport has more than one million square feet of office and warehouse space dedicated to broker, freight forwarder and container freight station operators who do business within the NY/NJ region.

## RUNWAYS/TAXIWAYS

The runway system consists of two pairs of parallel runways (4L-22R, 4R-22L and 13L-31R, 13R-31L) aligned at right angles. Total runway length is nine miles. All runways have high intensity runway edge lighting, centerline and taxiway exit lighting and are grooved to improve skid resistance and minimize hydroplaning. A 500' by 150' aircraft arrestor bed has been installed at the end of Runway 4R.

Taxiways total 25 miles in length. Standard width is 75 feet with 25-foot heavy-duty shoulders and 25-foot erosion control pavement on each side. Other features include the taxiway centerline light system and a sign system, illuminated at night to provide directional information for taxiing aircraft.

# NEWARK LIBERTY INTERNATIONAL AIRPORT

.....

## OPERATED BY

The Port Authority of New York and New Jersey, under a lease with the City of Newark, since March 22, 1948. In 2002 the Port Authority and the City of Newark entered into an agreement to extend the lease through 2065.

## LOCATION

In Essex and Union Counties between the New Jersey Turnpike (accessible from Exits 13A and 14), U.S. Routes 1 and 9 and I-78. The airport is about 16 miles from midtown Manhattan.

## SIZE

2,027 acres. 880 acres of this total were acquired by the Port Authority after it began operating the airport in 1948.

## HISTORY

Opened October 1, 1928, the metropolitan region's first major airport was built by the City of Newark on 68 acres of marshland and quickly became the world's busiest commercial airport. During World War II, the airport was operated by the Army Air Corps. After the Port Authority assumed responsibility for its operation, the agency added an instrument runway, a terminal building, a control tower and an air cargo center. The Central Terminal Area was constructed and opened in 1973. Other construction during the early 1970s included the Port Authority Administration Building, the Central Heating and Refrigeration Plant, and taxiways and roadways. In 1989, a two-building maintenance complex opened.

The International Arrivals Facility opened in Terminal B in 1996, the Monorail (now AirTrain Newark) also began operation in 1996 and a 325-foot control tower was commissioned in 2003 – the fourth in the airport's history.

**Approximately 50 scheduled airlines operate out of Newark Liberty.**

## INVESTMENT

The City of Newark spent over \$8.2 million on construction and development on the airport. The U.S. Government spent over \$15.1 million prior to 1948. The Port Authority has invested more than \$3.9 billion at the airport.

## EMPLOYMENT AND ECONOMIC IMPACT

OVER 24,000 people are employed at the airport. EWR contributes about \$18.5 billion in economic activity to the NY/NJ metropolitan region including over \$6.7 billion in wages and salaries. About 157,000 jobs are derived from airport activity.

## REDEVELOPMENT PROGRAM

EWR's capital program combines some \$3.8 billion in Port Authority, federal and

private funds and has delivered numerous improvements, including AirTrain Newark, new restrooms, ticket counters, signage, parking garages and runway and taxiway improvements. A \$2 million study for modernizing Terminal A has been approved. Terminal B is benefiting from a \$280 million modernization program. A \$22.4 million 325-foot control tower was commissioned in May 2003.

## PORT AUTHORITY ADMINISTRATION BUILDING

In 2002, reconstruction of the landmark Newark Liberty International Airport's Administration Building #1 was completed. The 100,000 square-foot building incorporates a new emergency response facility with the airport's original 1935 central terminal building, a National Historic Landmark. The facility houses much of the Port Authority's airport staff.

## CENTRAL TERMINAL AREA

The 425-acre oval Central Terminal Area was built as part of a large-scale airport redevelopment program in the 1960s and early 1970s. It consists of three passenger terminals – A, B and C.

## PASSENGER TERMINALS

Construction of **Terminal A** began in October 1967, and it opened for operation in August 1973. With 27 gates, the terminal branches out into three circular satellite buildings, designed as A-1, A-2 and A-3. The satellites contain flight departure lounges and airline and passenger service facilities. The main terminal building measures approximately 800 by 165 feet. Redevelopment plans include a \$20 million study to modernize the terminal.

In **Terminal B**, Delta completed a \$5.5 million modernization of its gate area shared with Northwest, and Northwest upgraded its boarding and baggage areas. In 2002, a multi-million dollar project that included the replacement of escalators, new revolving doors, and three freight-sized elevators was completed. \$279 million has been authorized to modernize the terminal and related facilities to improve customer service and allow greater efficiency for the screening process and baggage handling. Enhancements include additional ticketing areas, passenger screening points, and the construction of a new domestic baggage claim area.

The \$117 million International Arrivals Facility located in Terminal B opened in January 1996. Capable of processing 3,000 arriving passengers per hour, this facility has 15 international arrivals gates.

At **Terminal C**, Continental's Global Gateway project includes the C3 concourse, which opened in December

2001. With an additional 600,000 square feet of space, the facility was converted into a three-level terminal with two levels for departures. The concourse has 19 gates, a huge retail space and Customs facilities. Continental also completed its state-of-the-art International Arrivals Facility adding another 1,500 passenger-per-hour arrival capacity to the airport.

## AIRTRAIN

In the fall of 2001 AirTrain Newark began service to the Newark Liberty International Airport Train Station where passengers can connect to NJ Transit and Amtrak rail lines. The AirTrain connection provides an all-rail link between the airport and New York City, Philadelphia, points across New Jersey and destinations beyond.

## ROADWAYS

To reduce congestion and improve airport access, roadways were widened and reconfigured in the passenger terminal area and airport entrances giving vehicles the option to bypass the terminals and proceed directly to parking.

## PARKING

The airport provides over 20,000 parking spaces – about 17,000 public parking spaces in the short-term, daily and economy/long-term lots. Two parking garage were completed within the last few years. One is located at AirTrain Station P4 with six levels of parking, providing 3,200 spaces. The other parking garage, across from Terminal C, contains 3,400 spaces on four levels. E-ZPass Plus is accepted at all parking lots.

## CARGO

EWR is the overnight small package center for the NY/NJ region, offering a full range of short-, medium- and long-haul services to domestic and international destinations. The airport expanded its cargo capacity in 2004 with the opening of a 142,000 square-foot facility, which combined with United and Continental's cargo buildings, increases cargo space at the airport to 1.3 million square feet.

## RUNWAYS/TAXIWAYS

The airport has two parallel runways (4R-22L and 4L-22R) and a third runway (11-29), which is primarily used for commuter traffic. Runway 4R-22L is 9,980 feet long by 150 feet wide, and Runway 4L-22R is 11,000 feet long by 150 feet wide. Both runways have displaced thresholds to minimize noise effects. Visual aids include high intensity edge and centerline and high-speed exit taxiway centerline lighting. Over 12 miles of 75-foot wide taxiways link the three runways with the central terminal and cargo areas.

### OPERATED BY

The Port Authority of New York and New Jersey, under a lease with the City of New York, since June 1, 1947. In 2004 the Port Authority and the City of New York concluded an agreement that ensures the agency's continued operation of LaGuardia and JFK International through 2050.

### LOCATION

In the Borough of Queens, New York City, bordering on Flushing Bay and Bowery Bay. The airport is eight miles from midtown Manhattan.

### SIZE

LGA consists of 680 acres and has about 72 aircraft gates.

### HISTORY

The airport site was first occupied by Gala Amusement Park, and in 1929 it was transformed into a 105-acre private flying field. It was first named Glenn H. Curtiss Airport and later North Beach Airport. Taken over by New York City, the airport was enlarged by the purchase of adjoining land and by filling in 357 acres of waterfront along the east side. On September 9, 1937 ground was broken for a new airport, and on October 15, 1939 it was dedicated as New York City Municipal Airport. The name was changed to New York Municipal Airport-LaGuardia Field on November 2, 1939. The airport was opened to commercial traffic on December 2 of that year. The airport was leased to the Port Authority in 1947.

**Approximately 25 scheduled airlines operate out of LaGuardia.**

### INVESTMENT

Original construction by the City of New York cost \$40 million. The Port Authority's total capital investment in the airport is over \$1.3 billion.

### EMPLOYMENT AND ECONOMIC IMPACT

Nearly 8,000 people are employed at the airport. LaGuardia contributes nearly \$11 billion in economic activity to the NY/NJ metropolitan region, generating about 100,000 jobs and \$4 billion in annual wages and salaries.

### REDEVELOPMENT PROGRAM

The total combined Port Authority and airport partnership investment for the airport's redevelopment program is estimated at \$1.2 billion. To meet future air travel demand the Port Authority had undertaken a \$15 million feasibility study to redevelop the Central Terminal Building and other facilities. The cornerstone of the study is a business/financial plan for infrastructure improvements to support growth in the coming decades.

### PASSENGER TERMINALS

#### Central Terminal Building (CTB)

Dedicated on April 17, 1964, this terminal serves most of the airport's scheduled domestic airlines. It is 1,300 feet long and 180 feet wide, with approximately 750,000 square feet of floor space. Originally constructed at a cost of \$36 million, the six-block long terminal consists of a four-story central section, two three-story wings and four concourses that can accommodate up to 40 aircraft gate positions. The CTB completed a \$340 million expansion and modernization project in the 1990s. Its centerpiece is a \$47 million project that redeveloped the center section, including new elevators and escalators to accommodate persons with reduced mobility, plus modern restrooms. This redesigned center section has created a large concession space for shops and eateries.

#### US Airways Terminal

US Airways' \$200 million terminal opened in September 1992. This 12-gate terminal is connected to the airline's Shuttle Terminal and features approximately 300,000 square feet of floor space and a food and retail concessions court. The US Airways Shuttle Terminal serves passengers hourly with shuttle flights to Boston and Washington, D.C.

#### Delta Air Lines Terminal

Constructed by Delta Air Lines at the east end of the airport, the terminal opened in June 1983. It has ten aircraft gate positions. Northwest Airlines also operates out of this terminal.

#### Marine Air Terminal (MAT)

Once called the Overseas Terminal, the MAT was the original airport

terminal building, serving international flights on flying boats through the 1940s. In 1995 the Marine Air Terminal was designated a historic landmark. In 1980, the Port Authority rededicated the James Brooks mural, "Flight," first painted in 1942. On September 1, 1991, Delta began shuttle operations to Boston and Washington, D.C. General aviation also operates from the terminal through a fixed based operator. The terminal also houses a private weather service. A \$7 million restoration of this historic terminal was completed for the airport's sixty-fifth anniversary of commercial flight on December 2, 2004.

### PARKING

The airport provides a total of 10,400 parking spaces. This includes employee parking and 7,500 public spaces – including hourly, metered and parking garage spaces. Completed at the end of 1976 at a cost of \$30 million, the five-level parking garage accommodates approximately 3,000 cars. On October 4, 1998, Lot 3, with 930 spaces, was designated as a long-term lot. E-ZPass Plus is accepted at all parking lots.

### RUNWAYS

There are two main runways, 4-22 and 13-31. Each is 7,000 feet long by 150 feet wide. In a \$40 million project, completed in 1967 by the Port Authority, both runways were extended over water to their present length and width. The extensions were built on a 50-acre L-shaped pile-supported concrete structure. The runways have high intensity runway edge lighting, centerline and taxiway exit lighting. Runways are grooved for added traction during wet weather. In the summer of 2005 the airport began installing touch down zone lighting (TDA) as part of the Runway 13-31 rehabilitation program.

## DOWNTOWN MANHATTAN HELIPORT

---

### OPERATED BY

The Port Authority of New York and New Jersey on a site leased from the City of New York since December 8, 1960.

### LOCATION

Just above the Battery on Pier 6, East River, between the north side of Pier 5 and the south side of Pier 8. The heliport is convenient to the major air traffic-generating center of the downtown Manhattan/Wall Street area. Direct highway access is available via the FDR Drive on the east side of Manhattan and the West Side Highway on the west side. The entrance to the heliport is just south of where the FDR Drive begins, directly opposite the Vietnam Veteran Plaza. The facility is only seven minutes by copter to Newark International and LaGuardia airports, eight minutes to JFK and 15 minutes to the Morristown (N.J.) Airport.

### SIZE

Total square footage = 84,000; Pier = 550 ft. x 85 ft.; Barge – 90 ft. x 300 ft.; Parking = 12 helicopters, 18 cars.

### HISTORY

Built and operated by The Port Authority on a site leased from the City of New York. Opened December 8, 1960, it was the second commercial heliport in Manhattan and was the first in the U.S. to be certified for scheduled passenger helicopter service by the FAA. The Downtown Heliport was reconstructed in 1987 and is one of four FAA-designated national demonstration projects for the latest developments in equipment to enhance helicopter operations.

The heliport has parking for helicopters up to 50,000 pounds. It is the first public heliport with a semi-automatic fire protection foam system, and the first to use a barge for aircraft parking. The facility's terminal building is one of the most advanced in the industry, offering administrative office space, superior package and breakdown areas for courier operations, and a passenger-waiting lounge with the comforts of a modern airport terminal. It also houses the Port Authority's heliport operations center and a pilot lounge. The terminal features year-round heating, air-conditioning, soundproofing, ventilation and lighting for maximum comfort and convenience.

The Port Authority has invested over \$14.5 million in the facility.

### FACILITIES

## TETERBORO AIRPORT

---

### OPERATED BY

Teterboro Airport (TEB) is owned and operated by the Port Authority of New York and New Jersey.

### LOCATION

Located in the boroughs of Teterboro and Moonachie in Bergen County, NJ, it is twelve miles by highway from midtown Manhattan via the George Washington Bridge or Lincoln Tunnel.

### SIZE

Total = 827 acres: 90 acres for aircraft hangers, maintenance and office facilities; 408 acres for aeronautical use and 329 undeveloped acres.

### HISTORY

TEB is the oldest operating airport in the NY/NJ Port district. In 1917, Walter C. Teter acquired the property. During World War 1, North American Aviation operated a manufacturing plant on the site. After the war, the airport served as a base of operations for Dutch aircraft designer Anthony Fokker. The first flight from the present airport site was made in 1919. During World War 1, the

airport was operated by the Army Air Force. It was purchased by the Port Authority on April 1, 1949 from Fred L. Wehran, a private owner. The airport was leased to Pan Am World Airways and then to Johnson Controls for 30 years. On December 1, 2000, the Port Authority assumed full responsibility for its operation, together with American Port Services, Inc. which manages the daily operations and maintenance of the facility.

### INVESTMENT

Since 1970, the Port Authority has invested up to \$175 million to upgrade the airport's facilities and open new areas of service to the aviation community.

### EMPLOYMENT AND ECONOMIC IMPACT

The annual economic activity of TEB in the region amounts to \$1.8 billion. The airport generates over 15,500 jobs and about \$670 million in wages.

### AVIATION ROLE

TEB is designated a "reliever" airport, according to the National Plan of Integrated Airport Systems that serves general aviation requirements for the greater New York area. The facility has two runway configurations. Runway 1-19 (North/South) is 7,000 feet long. Runway 6-24 (NE/SW orientation) is 6,012 feet long. The airport is a 24-hour public-use facility, offering both visual non-precision and "all weather" precision landing capabilities.

It is important to note that, as a general aviation reliever airport, TEB does not accommodate scheduled carrier operations. The airport also imposes weight restrictions, prohibiting the use of aircraft with operating weights in excess of 100,000 pounds. TEB's utilization is comprised of a broad range of general aviation aircraft.

<b>Total</b>	<b>12,814,785</b>	<b>12,920,878</b>	<b>5,042,696</b>	<b>4,986,551</b>	<b>35,764,910</b>

## 2.6.1 LGA

### 2006 Passengers

TERMINAL BUILDING	DOMESTIC		INTERNATIONAL		TOTAL
	Inbound	Outbound	Inbound	Outbound	
Central Terminal Building	6,444,274	6,480,862	583,893	550,010	14,059,039
Delta Terminal	2,798,146	2,806,639	57,754	59,631	5,722,170
Marine Terminal	672,578	688,015	-	-	1,360,593
US Airways Terminal	2,319,623	2,286,845	31,501	30,832	4,668,801
<b>Total</b>	<b>12,234,621</b>	<b>12,262,361</b>	<b>673,148</b>	<b>640,473</b>	<b>25,810,603</b>

**Note:** It is difficult to accurately reflect traffic at passenger terminals having airline tenants whose service to a market group is split between two terminals. Problem cases are JFK's Delta terminals 2 & 3, and, to a lesser extent, American's Terminals 8 & 9.

**Total for top 50 Markets**      **58,603,340**      **87.4%**      *Percent Top 50 Markets are of Total*

**Regional Total**      **67,047,820**      **88.3%**      **49.5%**      **47.8%**      **22.0%**  
*Percent Pure Domestic O&D*      *Percent O&D originating at the base*      *Percent O&D by Top Airline*      *Percent O&D by 2nd Ranked Airline*

This table is derived from the **United States DOT 10% sample Origin & Destination Survey**. This table reflects a factor of 10 adjustment to the raw sample. The airline codes shown for the top two airlines in each market are industry standard IATA codes which are used for publishing airline schedules. B6 for example, is JetBlue, NK is Spirit, CO Continental, AA American, etc...

2002**	20,000	29,500	9,400	58,900
2003	n/a	n/a	n/a	n/a
2004**	18,352	29,519	7,874	55,745
2005*	n/a	n/a	n/a	n/a
2006*	n/a	n/a	n/a	n/a

**Note\*:** Airport not surveyed for this year.

**Note\*\*:** 2002 and after, the numbers shown are derived from a different method from that used for the earlier periods. The earlier period figures were based on surveys of employers at the airports. The current method counts any employee having a security badge as required by the Transportation Security Administration. In the 9/11 aftermath, the great majority of airport employees have security badges, in fact a small portion have more than one job at the airport and may have been counted twice. That is not a problem, as a job is a job and the old survey based method would have counted them twice as well.

## 4.6.1 Economic Impact of the Aviation Industry\*

*New York/New Jersey Region*

### IMPACT

EWR	JFK	LGA	REGION
-----	-----	-----	--------

2004  
(latest  
available)

Jobs				
Operations \$	93,510	140,980	44,400	278,890
Investment \$	4,850	8,970	680	14,500
Tourism \$	59,010	78,530	54,740	192,280
Total	157,370	228,480	99,820	485,670

Wages				
Operations \$	4,410	6,670	2,034	\$13,114
