

Port of New York
& New Jersey

Terminal Services Guide

The Port of New York and New Jersey

The Port of New York and New Jersey is the port of choice for the world’s shipping industry. As the largest port on the Eastern Seaboard and the third largest in the U.S., our network of terminals, railroads, roads, warehouses, and distribution centers gives shippers unprecedented access to the affluent and populated Northeast, as well as the Midwest and Eastern Canada.

STRATEGIC LOCATION

Access to 27 million local consumers and another 98 million consumers in the Midwest and Canada.

SUPERIOR NAVIGATION

With the completed harbor deepening (50’ MLW) and the elevation of the Bayonne Bridge (215’ MHW), our port can now handle the world’s largest container ships.

SIX TERMINALS

As one of the most high-volume ports in the world, our container terminal operators:

- Handle more first calls than all other East Coast ports combined.
- Process about 7.2 million TEUs per year, over \$200 billion worth of cargo.
- Serve 23 ocean carriers from around the globe, including all of the major global alliances as well as 11 independent carriers.

SPEED TO MARKET

Goods get into the hands of consumers quickly with the intermodal on-dock ExpressRail system serviced by two Class One railroad systems (CSX and Norfolk Southern), along with access to nearby air and road transportation.

SUPPLY CHAIN PARTNERS

Shippers have access to one of the largest concentrations of warehousing and distribution facilities in the country, with nearly one billion square feet of space within 50 miles.

SKILLED WORKFORCE

At the heart of our port’s high performance is a workforce skilled in today’s equipment and systems committed to efficiency and productivity

SHIPPING INDUSTRY PARTNERSHIP

The Council on Port Performance (CPP), comprised of shipping industry executives, provides leadership on ways to continuously improve operational efficiency and service reliability.

STEADY INVESTMENTS

Major Port Authority investments of almost \$7 billion, along with a \$1.2 billion capital plan investment, ensure the port will remain a premier port. Marine Terminal operators have invested approximately \$2 billion and through 2020 will invest nearly \$1 billion more.

Learn how one of the world’s leading—the Port of New York and New Jersey—can partner with you.
