List of specific record(s):

I am requesting access to or electronic copies of payroll records for employees of the Port Authority. Specifically, I would like payroll data that shows the name, position or title, department, hire date, and salary of each employee of the Port Authority as of the date of this request. I would like this information in electronic form. I can handle most formats but would prefer a spreadsheet or other searchable worksheet saved on a CD or diskette. Of course, I am available to discuss the data and format that would be easiest to produce. Thank you.
