Re: Contract EWR-264.003
Newark Liberty International Airport
Terminal B Modernization Program
Lower Level Expansion & B-1 Vertical Circulation

Dear Mr. Meller:

Please accept the following letter on behalf of S.M. Electric, Inc. ("S.M. Electric") in response to the letter of James Starace, P.E., Deputy Chief Engineer, Port Authority of NY and NJ (the "Port Authority") dated July 1, 2013 communicating the Port Authority's offer to settle S.M. Electric's claim for extended general conditions costs, loss of productivity damages and related extra project costs (the "Claim") for $2 million.

The Claim, calculated under the Cardinal Change Doctrine as would be presented to the Chief Engineer, totals $7,793,455.17 exclusive of interest. As a show of good faith, S.M. Electric has been negotiating the Claim under the most conservative court approved methods, demonstrating a Claim value of not less than $6,315,527.41 exclusive of interest.

S.M. Electric shares the Port Authority's desire to fairly settle this matter. Without prejudice to its rights, and for purposes of settlement negotiations only, S.M. Electric proposes an in-person meeting between Mr. Starace and Matthew Petrizzo, President of Matrix SME, as soon as practicable in September. In a good faith effort to reach a resolution, S.M. Electric proposes that the parties agree to a bracketed range in the next 15 days to reduce the gap between the Claim amount and the Port Authority's offer. Along these lines, S.M. Electric proposes to reduce its demand to $5.3 million provided that the Port Authority increases its base settlement proposal to $2.5 million. It is our hope that a final agreement within the bracketed range can be accomplished during the in-person meeting between Mr. Starace and Mr. Petrizzo.

Please forward this proposal directly to the Port Authority. The foregoing settlement proposal does not include, and expressly excludes, contractual payment to S.M. Electric for retainage and outstanding invoices for work performed under approved T&M change orders.

We look forward to the Port Authority's response, and thank you for your ongoing attention to this matter.

Very truly yours,

JMP/lpb

Jonathan M. Preziosi

VRH
CONSTRUCTION CORP.

October 15, 2013

Mr. James Starace, P.E.
Deputy Chief Engineer
The Port Authority of NY & NJ
233 Park Avenue South – 7th Floor
New York, NY 10003

Re: SM Electric Company

Dear Mr. Starace:

Under cover of this letter, VRH Construction Corp. ("VRH") is providing you with the information requested in your letter of September 12, 2013 as follows:

1. SM Electric Company, Inc. ("SME") has provided us, through its attorneys, Pepper Hamilton, LLP, a disc. The bid breakdown is contained on the disc. The disc is enclosed.

2. SME advises that the disc contains its baseline labor hours in its bid breakdown. That information is contained on the disc.

3. VRH encloses a summary of the bids received for the scope of work awarded to SME.

4. VRH encloses its electrical trade bid analysis and scope documents.

5. VRH encloses CPM progress updates 12 and 42.

6. We are advised that documents from SME, responsive to your request for its daily progress, equipment and labor reports, are contained on the disc.

7. We are advised that correspondence providing notice is contained on the disc.

8. A Point-by-Point Response to the McDonough to Preziosi letter of May 23, 2013 is enclosed, as prepared by SME.

VRH has also enclosed its response to the contentions contained in Mr. McDonough's letter regarding alleged delays at the North Generator.

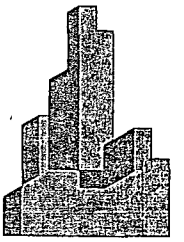
Rec'd 10/16/13



October 15, 2013

Finally, SME, through its counsel, has requested that we advise "the Port Authority that SME continues to reserve its right to present its Claim as one for total costs under the cardinal change doctrine." We have also been requested to advise you that "Mr. Petrizzo remains ready to meet with Mr. Starace at Mr. Starace's convenience."

Very truly yours,

Jeffrey P. Konen
Vice President

Re: EWR 264.003 Terminal B Modernization Program, Lower Level Expansion & B1 Vertical Circulation Contract

Mr. Konen,

We are in receipt of your February 13, 2012 e-mail, for the proposed thermo-graphic testing schedule set to begin on March 3, 2012.

Be advised that before any testing is scheduled, the following information must be provided by VRH and approved by the Port Authority.

1) Who will perform the testing?
   a) Are they certified as a required by the August 26, 2010 recertification Agreement?
   b) Has an SAR been submitted and approved for this company?
2) Testing procedures and parameters.
   a) Will every section of the respective switchgear be tested simultaneously?
   b) Will the EMDS-North be tested under full load conditions? How will the load be applied?
   c) Will the test reports be submitted for review and approval to Siemens?
   d) What is the duration of each shutdown?
   e) PSE&G shutdowns will be required in order to monitor the joints that are before the main CBs.

Although this has been an ongoing discussion with the Port Authority, VRH has only recently confirmed the manner in which thermo-graphic testing would proceed.

The execution of this recertification procedure along with the extended warranty period initially offered to make the Port Authority comfortable in accepting the electrical gear should in no way impact this contract with additional costs. VRH shall make the necessary arrangements for this work and all associated support work at no cost to the Authority.

If you have any questions, do not hesitate to call my office.

Very truly yours,

Michael C. Wallace, P.E. LEED AP
Senior Resident Engineer
Newark Liberty International Airport - CTA

Subject: RE: Switchgear SB Circuit Breaker A1 Test Report

Primary injection was performed at the STI shop with use of a High Current Test set. This was used in conjunction with the WLTS and The remote power module. There is a typo however on the LT test at 300% it should read 6000amps not 61000 amps. Sorry for any confusion but the tests were performed today at STI shop. Thanks and if you have any more questions or concerns please feel free to reach me.

Subject: Recertification Plan - Switchgear SA

Jeff and Mike

I understand from Don Sapanara that the PA is now attempting to add a requirement to the agreed upon plan which would require a second set of 3rd party testing on the subject switchgear following SM and Siemen's recent recertification work.

I understand the facts of this matter to be as follows:

1. Three independent testing labs and Siemens indicated that any oxidation or discoloration on the silver plated bus bar had no effect on the operation of the switchgear, or its useful life, and was merely cosmetic.
2. Switchgear SA, when originally installed, did undergo and passed independent 3rd party testing.
3. The mutually (SM and PA) negotiated and agreed upon Bus Bar Recertification Plan does not require a second level of independent third party testing of the kind first taken in #1 above.
4. Switchgear SA has been 100% field and lab tested, and recertified by Siemens.
5. Switchgear SA will have carry with it, post PA signoff, a 4 year extended warranty.

Notwithstanding VRH's offer to cover some part of the PA requested independent testing I do not understand why SM is being requested to again provide such testing. Please respond to my comments above to help me better understand the PA's request. Thank you.

Al

Re: Newark International Airport - Contract EWR-264.003 Terminal B Lower Level Expansion Project

Dear Mr. Konen:

This is in response to the Port Authority of NY and NJ's (the "PA's") letter to VRH dated July 19, 2011 concerning the Switchgear NB bus bar equipment at the above-referenced project. Please note the following:

1. The bus bar manufacturer Siemens has already verified several times that the limited green coloration noted by the PA is a purely cosmetic condition and does not affect the operability of the equipment.

2. Independent testing (by Scott) has confirmed that the green coloration does not and will not affect the operability of the equipment. If the PA has obtained any different data or information, we ask that it be shared with S.M. Electric immediately.

3. The bus bar equipment is not out of compliance with any Project specification.

4. The bus bar equipment has already been re-certified and re-warranted by Siemens.

1510 Chester Pike, Suite 500 • Eddystone, PA 19022-1337 • Phone: (610) 876-9292 • Fax: (610) 876-5902
S.M. Electric Company, Inc. is a subsidiary of Matrix Service Industrial Contractors, Inc.
Payment Remittance Only: Matrix Service Lockbox • P.O. Box 971819 • Dallas, TX 75397-1819

Based on the above, energization of the Switchgear NB is not being delayed by the limited, green coloration on the subject bar bars.[1]

Dismantling and re-plating of the bus bar equipment is not warranted. Any decision to proceed otherwise will not be on account of S.M. Electric.

We remain available to discuss this subject with VRH and the PA at any time. Thank you for your attention to this matter.

Very truly yours,

S.M. ELECTRIC CO., INC.

Re: EWR264.003
Terminal B Modernization Program
Lower Level Expansion & B1 Vertical Circulation
VRH 2034

Dear Mr. Wallace,

The following response is provided to the questions raised in your 7/23/10 correspondence regarding the proposed recertification to the Siemens switchgear.

Repair to Discolored Busbar

1. As part of the recertification process in each vertical section Siemens will visually inspect at least four bolted joint contact surfaces by disassembling the Joint to ensure that the silver plating is still intact. The inspection will include both the cable and bus compartments.

Preliminary inspections preformed to date have confirmed that the silver plating remains intact. In the event that the plating is not fully intact at any bolted connection, remedial repair to restore the silver plating will be performed.

2. As confirmed by Barry Powell of Siemens in our 7/28/10 conference call; "The loss of silver outside the electrical joints will not reduce the current carrying capacity or negatively impact the temperature rise of the bus bars in service and will not reduce the effective service life of the equipment.

3. During the recertification process, any components or equipment found to be compromised by corrosion or other means will be refurbished or replaced.

4. A representative from the silver plating manufacturer will train and certify S. M. Electric personnel for the installation of the field applied silver plating. Siemens will inspect the application as part of the recertification process. Written confirmation of training will be provided.

VRH
CONSTRUCTION CORP.

July 29, 2010

Mr. Michael C. Wallace, P.E.
Page 2

Electrical Components

1. All electronic trip units will be visually inspected as part of the recertification process.

In addition, one unit from each line up (total of four units) will be disassembled for complete internal analysis.

2. One WL circuit breaker from each line up (total of 4 breakers) will be shipped offsite for bench testing above and beyond field inspection. One molded case breaker from switchboards B1 and B2 will be shipped offsite for bench testing above and beyond field inspection.

Prior to commencement of the recertification process, Siemens will prepare a report to outline the inspection and testing procedures to be performed as part of the recertification. This report will be transmitted via separate cover.

Siemens will furnish a final recertification report and documentation stating that the equipment is certified as new consistent with new, switchgear being shipped from the factory.

Siemens will provide a warranty for the equipment for a period of two (2) years from the in service date.

Very truly yours,

Jeffrey P. Konen
Vice President

To: Winkler, Eric
Cc: Russ Elliott; Lochard, Daniel
Subject: RE: Siemens Bus Discoloration Letter

Eric,

The letter from Siemens stated that the bus plating has a tendency to naturally oxidize. Our third party testing company has also looked at the bus as part of their pre-inspection of the switchgear. They have also determined that this is a natural part of the aging process of the bus. Both Siemens and NCE have stated that this discoloration will have no affect on the performance of the equipment.

We will check with Siemens to see if there is any further documentation to accompany their letter. We will ask NCE to include their findings in their inspection reports.

Eric,

The Facility is still very concerned about the bus discoloration.
The Siemens letter states that the "sample bus piece has been reviewed by the factory."
Does that mean it was visually reviewed or chemically tested?
If it was tested, send us a copy of the test reports ASAP.

Make this a priority because this issue might delay energization of the switchgear.
Continue with the 3rd party testing, a per contract, until further notice.

Subject: RE: Siemens Bus Discoloration

Eric,

We have been in contact with Siemens for the above subject. We are trying a number of different contacts at Siemens to at least get a status on where they are with the bus analysis. We hope to have some kind of response from Siemens today.

Thank you,

Russ Elliott

Eric,

Has there been any correspondence from Siemens on this issue?
Has anyone contacted Siemens yet?

Eric,

Did you get a response from Siemens about the bus discoloration?
If not, when can we expect a response?

Daniel

In accordance with the above described Contract: PACC No(s): 00126

[XX] The following Extra is ordered.

[ ] The time for completion of the contract is extended as indicated below.

[ ] The following reduction is ordered.

[ ] The following change is ordered, at no change in price.

[ ] A change is ordered as specifically outlined below.

NOTE TO CONTRACTOR: Please sign original and return to the Port Authority representative whose signature appears in line five(5).

AS DIRECTED BY THE ENGINEER, PERFORM ALL WORK NECESSARY TO REVISE THE SEQUENCE OF OPERATIONS FOR AHU-5, 6, 7, 8 AND 9 IN TERMINAL B, AS FOLLOWS:

-WHEN THE OUTSIDE AIR TEMPERATURE IS 60F (ADJ) OR GREATER THE DISCHARGE AIR TEMPERATURE SET-POINT WILL BE 55F (ADJ). AS THE OUTSIDE AIR TEMPERATURE FALLS THE DISCHARGE AIR TEMPERATURE SET-POINT WILL BE RESET UP PROPORTIONALLY BASED ON THE FOUR RESET RATIO SET-POINTS. WHEN THE OUTSIDE AIR TEMPERATURE IS 30F (ADJ) THE DISCHARGE AIR TEMPERATURE SET-POINT WILL BE 70F (ADJ). ALL FOUR RESET RATIO VALUES, MINIMUM OUTSIDE AIR, MAXIMUM OUTSIDE AIR, MINIMUM DISCHARGE AIR AND MAXIMUM DISCHARGE AIR ARE ALL SOFTWARE SET-POINTS, ADJUSTABLE FROM THE XBS WORKSTATION AND THE X1581 POT'S.

-WHEN THE ROOM TEMPERATURE RISES ABOVE THE ROOM TEMPERATURE SET-POINT THE VAV (WITH REHEAT AND WITHOUT REHEAT) WILL DRIVE TO THE MAXIMUM CFM. WHEN THE ROOM TEMPERATURE IS AT THE ROOM TEMPERATURE SET-POINT THE VAV (WITH REHEAT AND WITHOUT REHEAT) WILL DRIVE TO THE MINIMUM CFM. DURING THE HEATING SEASON ONLY (HEATING ENABLED WHEN OUTSIDE AIR TEMPERATURE IS LESS THAN 60F (ADJ), WHEN THE ROOM TEMPERATURE FALLS BELOW THE ROOM TEMPERATURE SET-POINT THE VAV (WITHOUT REHEAT) WILL DRIVE TO THE HEATING CFM, WHICH IS TYPICALLY 50% OF THE MAXIMUM CFM. WHEN THE ROOM (SPACE) TEMPERATURE FALLS BELOW SET-POINT THE VAV (WITH REHEAT), THE CONTROLLER WILL ESTABLISH REHEAT AIRFLOW CFM AND WILL MODULATE THE HOT WATER REHEAT VALVE TO MAINTAIN SET-POINT.

ALL WORK SHALL BE COORDINATED WITH THE ENGINEER 48 HOURS PRIOR TO THE START OF WORK.

Re: EWR 264.0043
Lower Level Expansion
And Vertical Circulation

Dear Mr. Wallace,

We respectfully request consideration to reduce our retainage to 2.5%. This will allow for closeout of several subcontractors that have completed their contractual obligation.

Please advice at your earliest convenience on our request.

Very truly yours,

Jeffrey P. Konen
Vice President

VRH Job # 2034

Dear Mr. Behnke,

Specification Section 14240-8.2.01 (page 1041): specifies three (3) elevator manufacturers, Schindler, Kone and Thyssen Krupp with no substitution. Please be advised that all three (3) manufactures were solicited to provide a proposal to furnish and install the elevators in accordance with the contract documents. All declined to bid, stating that the custom cabs were inconsistent with their product manufacturing line.

As backup documentation, I provide the following;

1. VRH Invitation to Bid, to Schindler, Kone and Thyssen Krupp dated 8-17-06.

2. Thyssen Krupp Elevator letter dated 1-26-07, electing not to bid.

3. Kone Elevator letter electing not to bid.

We have requested a letter from Schindler and will forward it upon receipt.

We hereby request approval to utilize an alternative elevator manufacturer to furnish and install the elevators in accordance with plans and specifications.

Very truly yours,

Jeffrey P. Koneru
Project Executive

Change Order Request No. 031

Dear Mr. Leonardo,

We respectfully submit our Change Order Request on the above referenced project for the following items of work:

Per the Port Authority of NY&NJ's response to VRH RFI #42, changes in VAV Box Schedule, resulting in a net add of one VAV box with no heating coil and the change in size of one box.

A breakdown of our price is as follows;

HVAC		$2,656.80
Subtotal:		$2,656.80
Project Fee:	7.00%	$185.98
Total COR Amount		$2,842.78

Please issue a change order if you wish to proceed with this work. If you have any questions, please do not hesitate to call me.

Very truly yours,

Eric J. Winkler

Change Order Request No. 103

Dear Mr. Wallace,

We respectfully submit our Change Order Request on the above referenced project for the following items of work:

Per The Port Authority of NY&NJ directive dated 10/13/08:

Installation of two (2) recording ammeters capable of monitoring all phases of each electrical feeder, including duration and magnitude of peak loads. The recording ammeters shall be placed on the main buses for Switchgears NA and NB located in the North Switchgear Room. Data shall be recorded for a period of thirty (30) continuous calendar days; submit interim reports of the data readings at the end of each of the first three weeks and a final report at the end of thirty (30) days.

Furnish and turn over to the Engineer twelve (12) Hioki 5000A flexible current sensors (CTs) and twelve (12) coordination AC Adapters.

Shut down of the existing feeders shall not be permitted. All activities necessary to complete this work shall be conducted on and around fully energized electrical feeders and equipment.

Final report shall be submitted no later than three (3) days after the completion of the recording period. The report shall include, but not be limited to, the following information:

- Analog current and voltage values
- Peak current and voltage values
- Phase harmonics
- Peak demand KVA, KW, KVAR and PF

All data shall be indicated as per phase and total values, and as the Engineer may otherwise require.

Dear Mr. Wallace,

We respectfully submit our Change Order Request on the above referenced project for the following items of work:

Per The Port Authority Request for Quotation PACC No. 63 dated 3/11/09:

1. Furnish and install 120V power to two (2) Fire Alarm Circuit Extender Panels located in Elevator Machine Room 1 (EMR-1) and Elevator Machine Room 4 (EMR-4) in Terminal B. The circuit extender panel in EMR-1 (column D18) shall receive power from Panel LLTC-ERP, circuit #9 in the LLTC Electric Closet, Room 110, approximately 180 linear feet away. The circuit extender panel in EMR-4 (column D6) shall receive power from Panel ELLE-PRP, circuit #5 in the Electric Closet, Room 146, approximately 400 linear feet away.

2. Furnish and install two (2) power receptacles. one (1) for the Flight Information Display (FID) Monitor and one (1) for the Baggage Information Display (BID) Monitor in the B1 Lobby. The receptacles shall be powered from Panel LLE-TRP, curcuit #16 in Room 145, approximately 200 linear feet. Conduit shall be rigid galvanized steel (RGS). Conduit and wire sized in accordance with NEC.

3. Furnish & install two (2) data junction boxes, one (1) for the FID monitor and one (1) for the BID monitor in the B1 Lobby. The 3/4" conduit and drag line shall extend from the monitors to the Communications Closet, approximately 120 linear feet. Wire and terminations to be performed by others.

4. Furnish and install a grounding system for the South Generator Enclosure. The system shall include two (2) 10-foot 3/4" grounding copper rods and a 3/0 ground conductor cable, approximately 80 linear feet. The ground conductor cable shall interconnect the two (2) ground rods, generator enclosure, generator framing and generator neutral.

A breakdown of our price is as follows;

Electrical	$35,593.00
Total COR Amount	$35,593.00

Change Order Request No. 135

Dear Mr. Wallace,

We respectfully submit our Change Order Request on the above referenced project for the following items of work:

In response to RFI #111:

1. Furnish & install the conduit and wire for the 120 Volt circuit to the pipes being heat traced.

2. Furnish & install the heat tracing on the piping indicated on drawing F504.

3. Furnish & install a line sensing thermostat on each of the pipes being heat traced.

4. Furnish & install a 30mA equipment ground fault circuit interrupter circuit breaker in panel LLE-PRP for the circuit feeding the heating cable.

A breakdown of our price is as follows;

Electrical	$14,727.00
Total COR Amount	**$14,727.00**

Please issue a change order if you wish to proceed with this work. If you have any questions, please do not hesitate to call me.

Very truly yours,

Eric J. Winkler

Change Order Request No. 267

Dear Mr. Wallace,

We respectfully submit our Change Order Request on the above referenced project for the following items of work:

Per The Port Authority of NY & NJ Request for Proposal PACC No. 136 dated 04/05/2011, perform all work necessary to install approximately fifty (50) linear feet of 1 1/2" black pipe (as per specifications) from the Elevator Machine Room to the tie in point adjacent to MER No. 104 in Terminal B to reroute the CHW lines.

The routhing shall follow the existing refrigerant piping belonging to EMAC-2 from the Elevator Machine Room to the location where the CHW piping can penetrate into MER No. 104 by the south west corner. Use dielectric fittings where required.

Hours of work shall be as per Contract.

A breakdown of our price is as follows;

HVAC	$5,593.00
Total COR Amount	**$5,593.00**

Please issue a change order if you wish to proceed with this work. If you have any questions, please do not hesitate to call me.

Very truly yours,

Eric J. Winkler
Project Manager
