Work Order Title: JFK Airport
Terminal 7

Work Order Base Contract Amount: \$ 3,094,000.00

DESCRIPTION OF CHANGE:

As directed by the Engineer, provide all labor, materials and equipment required to saw cut and remove approximately 421 tons of 24" thick concrete slab that lies beneath Stages 1L, 2L, 3L, 4L and 5L along the frontage of Terminal 7. This Work includes but is not limited to the removal, transportation, and disposal of the concrete slab as well as test pits required to verify sub-surface conditions.

REASON FOR CHANGE:

During the excavation at Stage 2L, the 24" concrete slab was found. Further test pits indicated the slab extended from slab 1L through 5L.

The slab interferes with the required bollard foundations shown on Drawings C301, C302, S301 and S302 dated 3/22/2012. It is necessary to remove the concrete slab to install the bollards and their foundation. This Work is additional to the Contract.

DRAWINGS & SPECIFICATIONS:

Contract Drawings S301 and S302, S302 dated 3/22/2012, RFI-SSW-015 dated 10/23/2012, RFI-SSW-016 dated 11/13/2012, and SK-01 dated 3/18/2013.

Work Order Base Contract Amount: \$ 3,084,000.00

DESCRIPTION OF CHANGE:

As directed by the Engineer, provide all labor, materials and equipment required to fabricate, transport and install the "sandwich plate" assembly described in PACC-019 Drawings S-303, RS-603 and C-503, each dated 8/6/2013 and provide a credit for the original bollard configuration at this location shown on the Contract Document, S-303.

REASON FOR CHANGE:

During the excavation at Stage 1, Lower Level, at column S, the depth of subsurface structural elements was found to be insufficient to allow the installation of both deep and shallow bollard assemblies shown on the contract documents and to accommodate the handicapped ramp shown at that location. _____ was provided to the EoR, who ultimately responded with a design for a "Sandwich Plate Assembly" in lieu of other shallow or standard bollards at 4 bollard locations that resolved all issues.

The sandwich plate assembly differs from the original scope of work for this area, and accordingly, the difference between the Contract work and the work contemplated in the new scope constitutes a change to the Contract.
