List of specific record(s):
I am an undergraduate at Cornell University, and I am working on research with Professor Sharon Tennyson. She is looking at the impact of the Department of Transportations Passenger Protection Rule of 2010. We are focusing on airline behavior at regional airports that service JFK, EWR, and LGA. To move forward with the research, we need to obtain a few pieces of information. First, we are hoping to find a list of the regional air carriers that fly out of regional airports in the Northeast area, and who they are contracted with if possible. Additionally, we are hoping to find information about regional air carrier routes in this area in order to see which regional airports are the primary feeder airports for each of the three airports we are focusing on. If the Port Authority has any of this information, it would be excellent if we could gain access to it. If not, would you mind pointing me towards a source that might have this data? Thank you so much for your time and help

Re: Freedom of Information Reference No. 15865

Dear Ms. Swain:

This is in response to your March 11, 2015 request, which has been processed under the Port Authority's Freedom of Information Code (the "Code", copy enclosed) for a list of the regional air carriers that fly out of regional airports in the Northeast area, and who they are contracted with if possible for JFK, EWR and LGA. Additionally, we are hoping to find information about regional air carrier routes in this area in order to see which regional airports are the primary feeder airports for each of the three airports we are focusing on.

Material responsive to your request and available under the Code can be found on the Port Authority's website at http://www.panynj.gov/corporate-information/foi/15865-O.pdf. Paper copies of the available records are available upon request.

Please refer to the above FOI reference number in any future correspondence relating to your request.

Very truly yours,

Daniel D. Duffy
FOI Administrator
