
APPENDIX L COASTAL ZONE MANAGEMENT

NOTE: A draft Coastal Zone Consistency Assessment for the Proposed Project was included in the DEIS of May 2009; including the available questionnaires from the respective consistency assessment forms and an assessment of the coastal policies from each of the three coastal zone management programs (i.e., New Jersey, New York, and City of New York). At this time of the FEIS, such assessments and respective consistency determinations will be performed at a later time during the subsequent environmental permits and in consultation with NYSDOS/NYCDCP and NJDEP.

Therefore, such appendices are no longer provided in this FEIS.
