Re: APM Terminals Empty Access Gate Relocated

The Port Authority will expand the capacity of McLester Street through a series of initiatives that include constructing additional lanes, jug-handles and synchronized lights.

Due to this project, APM Terminals' existing Empty Gate access located on Mclester Street will be closed and the entrance will be shifted further north.

The new Empty Gate access will permanently re-locate from McLester Street to Tripoli Street commencing on June 4, 2012. Please refer to the attached Map.

We thank you for your urgent attention and support on this matter.

Sincerely,

Brian E. Clark
Managing Director, APM Terminals Port Elizabeth

MCLESTER STREET
